

CHARA  
1971

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1999 (Department of Health 2000).

There is a growing emphasis on the need to improve the quality of care provided in the public sector, and to ensure that the public sector is able to meet the needs of the population. This has led to a number of initiatives, including the introduction of the Health Service Act 1990, the Health Service Act 1997, and the Health Service Act 2000.

The Health Service Act 1990 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

The Health Service Act 1997 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

The Health Service Act 2000 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

The Health Service Act 2000 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

The Health Service Act 2000 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

The Health Service Act 2000 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Authority (HSCA) and the Health Service Commissioning Board (HSCB).

## Faces of Tech—reflecting struggle to

## achieve, to compete, to be an individual

More than 1800 faces are at Hammond Tech,  
each reflecting a different student.  
Each reflecting today's youth.  
What is the story their faces portray?

A struggle to achieve,  
to compete,  
to be an individual.  
Yes, to be an individual.

The youth asks:

What is my purpose?  
Which goals should I set?  
Where do I belong?

And they answer:

Only I can determine this,  
and I will be myself,  
for I am an individual.

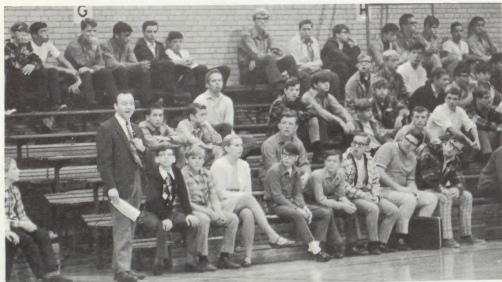

Change also reflects today's youth,  
as well as adults of this generation.  
In change, the adults and youth are in  
an everlasting conflict to understand  
one another. The youth of today have  
a dual problem. As youth in general  
changes, they must also face the  
transition from youth to adult.

And to you,  
we present the story of Tech's changing  
youth as they struggle to achieve—  
some came out on top,

to compete—  
they won, they lost,  
and yes, to be an individual—  
as many now are.

Students went through regular routine of filling out enrollment cards. This was one of the few things accomplished during the strike aside from signing in to be eligible for state funds.

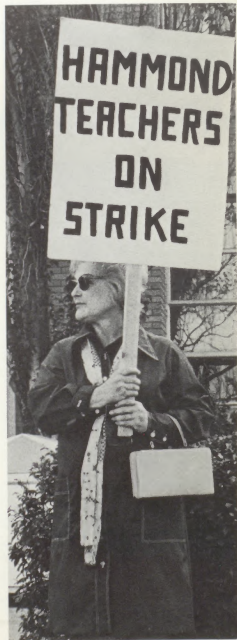

Each day students came prepared to start classes, only to find the dismissal from Assistant Principal Mr. Borney becoming typical of each morning.

## September ...

Teachers man picket line stations . . .  
 Longest strike in Hammond school history begins . . . Schools remain open . . .  
 Students report daily . . . Dismissed . . .  
 Grow impatient . . . Parents, students, and teachers speak out over local wires . . . Anxiety, tension, mounts . . . Teachers ordered to return to the classroom . . . Few respond . . . Round the clock negotiations begin . . . Massive teacher meeting at Civic Center . . . Teams still bargaining at entrance . . .  
 Time out called . . . The index will stand . . . Morning of September 22 . . . Vote . . .  
 Return to classrooms . . .

Once school had started, students had a lot of catching up to do. With the first few lunch hours came the traditional establishing of lunch seats for the semester.

Teachers could be seen carrying picket signs in front of school. This became symbolic of the teachers not yet reaching a settlement.

National Education Week brought parents to school for Tech's Open House. Parents become involved as they took students' places on a mack schedule of classes.

## October . . .

Tigers and alumni look forward to Homecoming . . . Plans hampered . . . Date scheduled . . . Changed . . . Lighted field unavailable . . . Rescheduled . . . Parade route changed . . . Floats hurriedly constructed . . . No bonfire due to danger . . . Spirit picks up . . . Homecoming Week begins . . . Teachers and students regard phases of celebration attire . . . Bermudas . . . Sweatshirts . . . Color Day . . . Class Color Day . . . Tricycle Derby, Tug of War gets everyone in the swing . . . Votes cast for Queen and Princesses . . . Pep assembly cheers plead for Tiger victory . . . A win . . .

The main event of October was Homecoming. Seniors met regularly to complete their first place float for the annual parade.

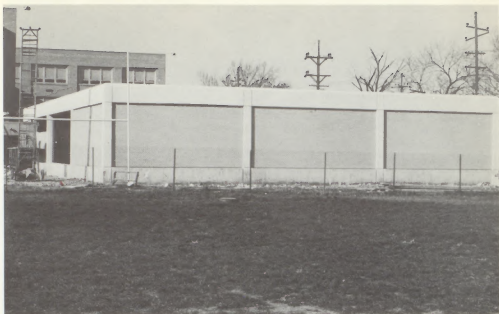

"The trees were gazing up into the sky, their bare arms stretched in prayer for the snows."

October brought on the last election of the Class of '71. Seniors gather to hear campaign speeches of nominees.

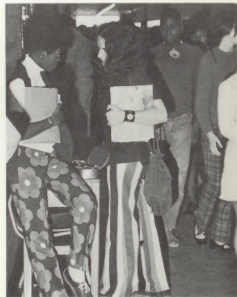

The 1970-71 basketball season was officially underway as Tech gained possession of the first tip-off of the game. Tigers went on to beat Merrillville 71-49.

Progress could be seen in November toward Tech's new addition. The resource center will contain modern facilities, study areas, and audio-visual equipment.

## November . . .

Cold weather adds chill to school atmosphere . . . Girls plead for dress code revision . . . Pant suits and slacks are in . . . A few demand . . .  
 Protest . . . local industries polled . . .  
 Students claim . . . It should be a choice . . . Dress cannot interfere with education . . . Here to learn . . .  
 Clothing should not matter . . .  
 Parent-teacher-student committee meets . . .  
 Arguments heard . . . Much discussion . . .  
 Student body polled . . . Majority want revised code . . . Do not wish full abandonment . . . Committee resolution is given to administrators . . .  
 Students reminded of vocational training . . .  
 Decision reached . . . Code is revised . . .

In November girls fought to wear slacks to school in cold weather. A ruling was passed, and they were able to wear "pant suits and dress slacks."

The Adult Athletic Association sponsored a late fall spaghetti dinner. Proceeds were used to aid the athletic department.

Mr. Turner and Mrs. Myers step up to the refreshment table at the Christmas Tea. Girl's Club sponsors this annual event in which all faculty members are invited.

## December . . .

Too few days remain for Christmas shopping . . . Too many days left before vacation . . . Halls take a merry note . . . Flurries bring thoughts of gaily . . . Clubs plan toward parties . . . Students realize responsibility to those less fortunate . . . Collections taken during advisories . . . Food cans and staples given heartily day after day . . . Toys chosen for needy children . . . Carolling in the halls . . . Annual tree appears in cafeteria . . . Santa appears at Christmas Tea . . . Door decorating competition stiff . . . Countdown leaves little time for papers . . . Vacation send-off by drama department . . .

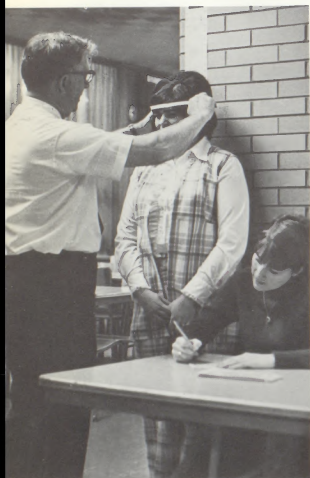

Among assemblies attended by Tech students this year was one concerning drug abuse. The discussion was led by Detective Ryame.

Everyone joins in together to sing the finale at the choral department's Christmas Concert.

Letterman's fall initiation consisted of the candidates dressing as girls for a day. There was also a special gym session in which the "girls" played a game of basketball.

In January seniors started preparing for their graduation in June by ordering caps and gowns.

During one of the basketball games there was a special night at which Tech basketball alumni were honored at half time.

A representative of Herfi-Jones collects final payments as juniors pick up their long-awaited class rings.

While students were home getting a two-day vacation, teachers were in school putting grades on report cards for the end of the first semester.

## January . . .

The year once started . . . Now half over . . .

New Year brings new resolutions . . . Last minute rush to finish

homework assignments . . . Prepare for finals . . . The possibility of "A" becoming "B" . . . The excitement of "B" turning to "A" . . . Pensive moments for athletes, coaches . . .

Seniors realize their last oncoming semester . . . Schedules reviewed . . . Changed . . . Finals over . . . Papers

in stacks everywhere . . . Grades being averaged . . . Attendance figured . . . Ninth hours to make up . . .

Final average in . . . Grade distribution hectic . . . Students return for cards . . . Pay for a successful semester . . .

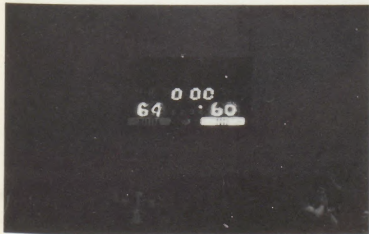

Pep band played at home basketball games.

## February . . .

Hoosier mania becomes Tech mania . . .  
 Early hopes high . . . Rise and fall  
 with season scores . . . Very  
 few pep assemblies . . . Lack of  
 Tigerism . . . Season advances . . .  
 Pep quickens . . . The wonder and  
 waiting for sectional draws . . .  
 Draw . . . Debate . . . Win looks  
 good . . . Students purchase annual  
 tickets . . . Flowers ordered . . . Plans  
 made . . . Cheerleaders lead peppy  
 student assembly . . . Players  
 introduced . . .  
 Coach pleads for backing . . . Game  
 time arrives . . . Tigers take off . . .  
 In the lead . . . Keep the lead . . .  
 Downed in fourth . . . Hopes lost . . .  
 Tigers bow to Morton . . .

With snow covering the fields, track runners practiced in halls for the coming season.

The scoreboard tells the story as Tech lost to Morton in the sectionals held at the Civic Center.

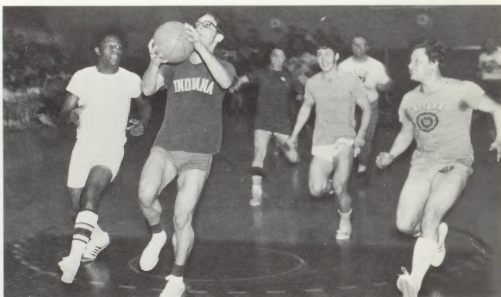

Athletes are honored at a series of sports banquets. Mr. Lentvasky speaks at the Spring Sports Banquet.

## March . . .

Two years in the planning stages . . .  
 Tech Folk Singers ready themselves for  
 European tour . . . Performance  
 after performance . . . Endless . . .  
 Call on community organizations . . .  
 Tech clubs become active helpers . . .  
 Sell sweatshirts, furniture polish . . .  
 Record album . . . More sales . . .  
 One month to travel time . . .  
 Budget unsure . . . \$600 per person  
 to raise . . . Funds build . . . More  
 concerts . . . "Pojama Game" . . .  
 Press releases go out . . . Physical  
 exams, vaccinations given . . .  
 Arrangements made for missing  
 classes . . . Singers begin packing . . .  
 Little to do but wait . . .

Seniors chalk up another victory, this one against the faculty in the annual Senior-Faculty Basketball Game.

One of the less enjoyable experiences of the senior year was the tuberculin test administered by Mrs. Mehleck.

The choral department gave three performances of their musical, "Pojama Game."

Two students rest after the Little Calumet River Clean-Up, when the five Hammond high schools united their efforts to fight pollution.

Parents and students wave off the Folk Singers as they depart for their trip to Europe.

## April . . .

Spring finally begins to show through . . .

Green seems weaker . . . From all over the world youth plead for clearing our lands of pollution . . .

Tech students farm S.T.O.P. . . .

Projects and interest grow throughout year . . . Battles collected . . . Day given to talks, films, an pollution . . .

Individuals realize the importance of the battle . . . Ban together . . .

Little can be done against industry . . . What can an individual do? . . .

What pollution is caused by individuals? . . . One individual can help others . . . Together they can make a dent . . . CREAD cleans the Little Calumet River . . .

Dr. Hatch and Mr. Parson listen intently as a guest at the Employer-Employee Banquet talks about the importance of vocational education.

When the second semester began, Senior Advisory was held each Wednesday morning. All seniors met in the auditorium to hear announcements concerning the final senior events.

Guests attending the prom were instructed on posing by Mr. Hayden, who took the pictures.

Once again the biology classes journeyed to the Field Museum of Natural History on their annual field trip.

Juniors and seniors sponsored two car washes, one which was May 1 in order to raise money to help with the cost of the Prom.

Forum Club members get their booth ready for the Spring Carnival Friday night, May 5.

May was the month for club pictures to be taken for the yearbook.

## May . . .

Closing of a year can be seen  
in the near future . . . Tech prepares  
for traditional occasions . . .  
Seniors try out, practice, and  
perform at annual senior class play . . .  
Traditional prom and post-prom  
party tickets become available . . .  
Girls busy shopping, sewing . . .  
Cops and gowns already ordered . . .  
Many honor banquets held . . .  
End of a fast year nears . . .  
Graduation announcements are  
sent out . . . Students begin looking  
for summer jobs . . . Soon-to-be  
grads search for permanent  
employment . . . Senioritis reaches  
its highest peak . . .

Aqua babes and swim team held a car wash and wax the last day of school.

Shelves were emptied and the books were stacked in cartons as students help in the preparation of getting material ready to move to the new resource center.

## June . . .

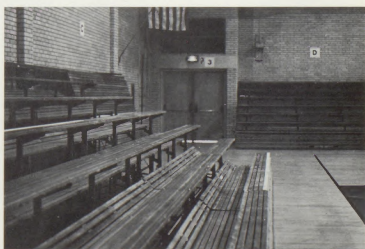

On a hot early June afternoon . . .  
 Graduates perform first ritual . . .  
 Baccalaureate services are held . . .  
 Still not complete reality to some . . .  
 Days later . . . The final wearing  
 of caps and gowns occurs . . . Lining  
 up in the hall way . . . The first  
 sounds of "Pomp and Circumstance" . . .  
 The procession begins to move  
 quickly . . . All are inside, seated . . .  
 Around the audience proud faces  
 of parents . . . Tell a very different  
 story . . . Much thought and wonder  
 must be happening . . . And then the  
 march back . . . The gown is  
 returned . . .  
 And hundreds of others hurry . . .  
 To finish in the obsence of faces . . .

Mr. Kuhn, school board member, congratulates Kevin Hayes as he hands him his diploma.

September . . .

. . . June

## Tradition and events

We go through the every-day monotony. Among this rushing there comes a time for planning and participating. Each personality becomes involved. Some may plan while others choose only to participate.

The growing enthusiasm of Homecoming draws the most shy student into its over-whelming atmosphere of pride and hopeful victory.

The musical talents and ambitions of students are brought forward.

Many students further their knowledge of other places and people by attending the annual New York-Washington Tour.

As students become seniors they plan the plays and parties which remain a constant reminder of the work and pleasure

that went with being Tech seniors.

Along the line comes a time for fantasy.

Prom brings the atmosphere of high hopes and plans so true for certain youth.

Yet all is brought back to reality as we find ourselves in caps and gowns leaving the dream world and entering a world of future plans and stabilized decisions.

No longer do we participate in the fun of activities.

We must leave them behind.

Activities which let us be a part.

And the school which will remain a continuous part of our lives.

Of the many floats entered in the homecoming parade were individuals. One of many participating was Greg Cox.

## Special events enhance homecoming week

Halftime this year was highlighted with the crowning of Pom Nightingale as Homecoming Queen. Her court consisted of senior princess, Lucy Sontos who was escorted by Len Elboor, junior princess, Debbie Bogielski escorted by Jim Wilczynski, sophomore princess was Penny Jergens who was escorted by Daryl Kennedy. Susan Simmons held the title of freshman princess and she was escorted by Greg Scosny. Bill Connor was given the honor of escorting our Homecoming Queen. The escorts were all members of the Letterman's Club.

During Homecoming Week students enjoyed various activities. Sweatshirt Day, Monday October 12 began Homecoming Week with a big swing. Students participated as girls were allowed to wear slacks with their sweatshirts. Varieties of hats could be seen on Tuesday, Crazy Hat Day. Assorted fashions were seen during Mod Day. And, on this particular Wednesday teachers dressed for the occasion also. Tigers showed their stripes when everyone wore the school colors on

Loyalty Day. On the final day of Homecoming Week all were given the opportunity to wear Bermudas on the ever favorite Bermuda Day.

The undefeated senior girls' football team met the junior girls' football team with high hopes of winning. Like tradition, their hopes remained high for they walked away once again a winning team.

The annual tug-o-war was held on the Civic Center grounds Thursday. The Freshman boys were proclaimed the winners.

Chalk up one more for the mighty Seniors for they once again carried away first place in the Class division floats. VICA Drafting took most awards in the Homecoming parade contest, placing first, second, and third in shop divisions. Student Council won first place in clubs, and Mark Szpik achieved first place in individual division.

Homecoming ended with a victorious win over Whiting. The Tech Tigers demolished the Whiting Oilers 16-0 at Clark Field.

Clearlight provided dancers with a variety of sounds during the annual homecoming dance.

Whiting defense was unable to stand up to the Tigers during the Homecoming game as the final score 16-0 showed victory for Tech.

Pam Nightingale is crowned Homecoming Queen during halftime by last year's queen Pam Van Dusen.

The Powder-Puff football game proved victorious for the seniors as they whalloped the junior girls 20-0.

Tech's juniors and seniors, along with students from other area schools, ventured to the annual Washington-New York tour once again. There was a slight change this year, however. Students went by plane instead of the traditional train.

Hoosier State Bank Travel Agency organized this five-day tour of New York City and Washington D. C. for upperclassmen of Hammond's five public high schools. The tour began Wednesday October 21, and lasted until October 24, which was a Sunday.

The cost of the air-traveled trip was \$169.95 per student, which included all transportation, meals, and sight-seeing.

This was a great opportunity for the students to see historical and breathtaking sights. Various points of interest, such as the White House, the Lincoln Memorial, and the Tomb of the Unknown Soldier, were visited.

In New York aching feet could mean only one thing—results of the climb up the Statue of Liberty. The Empire State Building, Radio City Hall, and Greenwich Village were visited as well.

Many places of historical interest were visited by students on the tour. Here Kathy Kirk, Sonia Martinez, and Nancy Kenney venture to the Smithsonian Institute.

## Annual Tour provides travel experience

A view from the Empire State Building was found to be appealing by students on tour.

Representing all servicemen and making a spectacular ceremony during the changing of the guard is the Tomb of the Unknown Soldier.

A scene impressive to young Americans was the gravesite of Robert F. Kennedy.

The Statue of Liberty is a must for sightseers in New York.

Boy's chorus sings one of three songs of the choral department's Fall Concert.

At the Spring Concert, Girl's Chorus sing about the problems of today.

Concert Choir waits patiently for Miss Snyder to present the music awards.

## Vocalists present series of concerts

Miss Snyder directs Girl's Choir at the Spring Concert.

Mrs. Banks (Angela Durr) just finds out that Corie (Diane Diggs) has arranged a blind date for her with Mr. Velasco (Gus Mellado).

Corie (Diane Diggs) acts nancholant as she and Paul (John Sporer) have one of their many arguments throughout the play.

## "Barefoot in the Park" on Tech stage

Mrs. Banks (Angela Durr) listens as Victor (Gus Mellado) throws out his problems to her, including a broken toe, an ulcer, and a feeling that he's not as young as he used to be.

Before they go out to eat, Mrs. Banks (Angela Durr) has some hors d'oeuvres that Victor (Gus Mellado) brought.

Carrie (Diane Diggs) wants to throw out Paul (John Sporer) because he won't go walking barefoot in the park.

March 12, a lively comedy, "Barefoot in the Park" was presented by our drama department, with Mr. Porter directing. The main characters were John Sporer as Phil Bratter and Diane Diggs as Carrie Bratter. Angela Durr played Carrie's mother, Mrs. Banks. Gustavo Mellado played Victor Velasco, an interior director. Raymond Van Til played a telephone man and Darryl Dorton played a delivery man.

The setting is a New York apartment, occupied by a newlywed couple, Carrie and Paul Bratter. They had almost spoiled their marriage when Paul refused to walk barefoot in the park with Carrie in February. Carrie tries her hand at match-making with their neighbor, Victor and her mother, Mrs. Banks.

Carrie arranges a blind date. After dinner, Victor takes Mrs. Banks home against her will. Carrie and Paul begin to fight about Carrie's mother's actions on the blind date. Meanwhile, Carrie gets a call and learns that her mother never made it home.

Carrie leaves the apartment to look for her mother. Soon Carrie finds her in Velasco's room. Paul leaves when Carrie returns from Velasco's room crying. Paul returns drunk, and his feet soaking wet because he had been walking, barefoot in the park.

Sid (Jim Lewis) listens reluctantly as Mr. Hasler (Larry Mackawiak) goes into a tither.

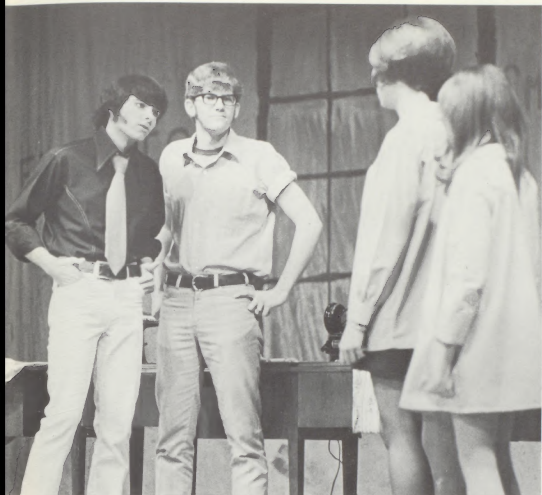

Sheri Shaak, central figure, plays Mary, one of the Sleep Tite Pajama Factory workers.

## "Pajama Game" profits used to aid

"Racing with the Clock" at Sleep Tite.

Sid is approached by members of the grievance committee.

Tech's Choral Department presented the musical, "Pajama Game," March 25-27. Although it was a Broadway hit in 1954, the plot is still popular today.

The setting of the play was in the Sleep-Tite Pajama Factory. Larry Mackowiak was Mr. Hasler, the president, and his secretary, Gladys, was played by Jaannie O'Neal. Willie Liggins was Hines, the Times study aid, and Jim Lewis was Sid Sarakin, the new plant manager. Babe Williams, chairman of the grievance committee, was played by Nancy Reed. Jeannie O'Neal was Mabel, Mr. Sarakin's secretary, and Rene Trevina was the union president.

Also with speaking parts were Jim Allen, Tommy Gilson, Darrell Cook, Jim Oney, Laura Zarowny, Penny Juergens, Basheba Haney, Jim Williams, and Jim Basala. Other members of the Concert Choir were the factory workers.

Sandra Wynn was the student accompanist, Richard Whitmore was the student director, and Miss Snyder directed, assisted by Miss Bohling and Mrs. Blandford.

Sid (Jim Lewis) and Babe (Nancy Reed) sing "There Once Was a Man."

## Europe-bound folk singers

Heinsie (Willie Liggins) and Gladys (Jaannie O'Neal) argue over Gladys' flirting.

Europeans watch from the upper deck while the Folk Singers perform going up the Rhine River.

The 747 Sabena jet was transportation for the singers to Europe and back.

## European tour a reality for folk singers

After seven months of hard work and planning, Hammond Tech's Folk Singers were on their way to spend two weeks in Europe giving concerts throughout.

Several means were used to raise money to make the trip possible. At football and basketball games, the folk singers manned the concession stands. Through out the school year they sold Tech jerseys, Tiger pins, window cleaner, furniture polish, and records of songs sung by the choral department. They also collected the proceeds from various choral concerts and "Pajama Game." Last, but by far not the least, the Folk Singers gave over 50 performances throughout the Calumet Region in which the donations received greatly helped them meet their goal of \$600.00 per person.

Then Tuesday, April 6, they began their departure. After a special session in the gym, where they sang their theme song, "Leaving on a Jet Plane," the singers boarded a bus in front of school that took them to the airport, at O'Hare caught an airplane that took them to Kennedy Airport in New York, where they climbed aboard a 747 Sabena Jet and headed for Europe.

They arrived in Brussels, Belgium,

where they boarded a bus and left for Amsterdam, the capital of Holland. Thursday they toured Amsterdam, and gave their first concert in Leeuwarden. April 9, they drove to Cologne, Germany where they took in sights including the great Cathedral. Saturday, they ventured to Hiddelburg which included a boat trip up the Rhine River. Easter Sunday their trip continued with a visit to Hiddelburg Castle and the old student prison. They gave a performance in the court yard of the castle and also at Tompkins army base. April 12, they arrived in Munich, Germany. The remainder of the week was spent touring and giving concerts in various cities. The Folk Singers arrived in Paris, April 18, where they visited Laurve, an art gallery, and viewed the famous Mono Lisa. They also gave a concert near the Eiffel Tower.

The next day was their last. They flew to Brussels, boarded the 747, and headed for home. In New York they went through customs and caught their last plane. Upon arriving in Hammond they were met by parents, friends, and relatives. The next few days at school were spent telling tales of their encounters and unusual experiences.

The small Arch of Triumph was visited in Paris.

Tourists in Amsterdam ride down one of the canals.

Singers perform aboard a tour boat.

The Notre Dame Cathedral is often admired by sightseers in Paris.

Jean O'Neal views a royal carriage at the Hiddelburg Castle in Germany.

Going up the Rhine River the Folk Singers give a performance.

Students frolic at Junior-Senior Party.

## Junior-Senior party mirror awards site

Bill Conner and Sharon Scott receive "Best All-Around Senior" awards.

The annual Junior-Senior Mirror Award Party took place April 1. Refreshments were served, and records provided the music. The highlight of the evening was the presentation of the Mirror Awards to sixty seniors. The awards ranged from "Best All-Around Senior," won by Bill

Conner and Sharon Scott, to "Mutt and Jeff," given to Lenny Elbaor and Laura Zarowny. Also held at the party was a dance contest open to anyone present, and also a balloon game, with records as prizes.

Betty Buczek serves refreshments at Junior-Senior Party.

# Money earned from gala carnival booths

Annual Spring Carnival provides relaxation and fun for participants.

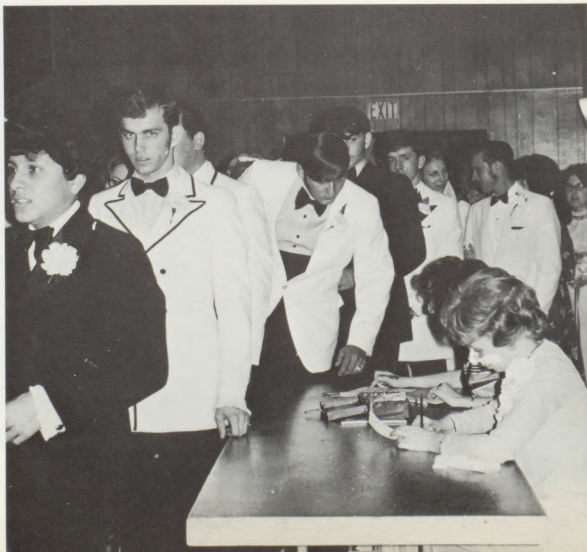

Mrs. Blandford comes through to post bail, as Miss Bahling waits for the cell door to be opened.

Letterman's booth, the Toilet Flush, proved to be unusual.

Couples take part in the traditional grand march at Prom.

Students attending Prom waited in line for their pictures to be taken.

# Prom enlightens senior year activities

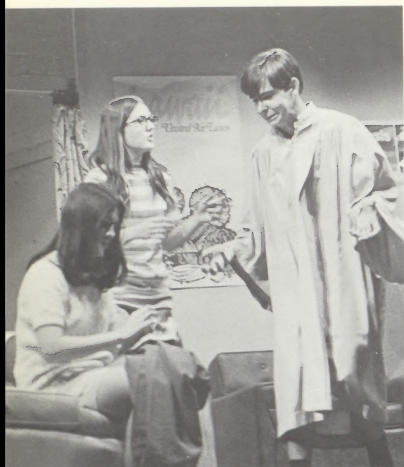

Lucy Santos and Bob Gilbert enjoy refreshments during a break from the dancing.

Bill Conner and Mary Margaret Toth dance to music provided by Bud Presner and his Orchestra.

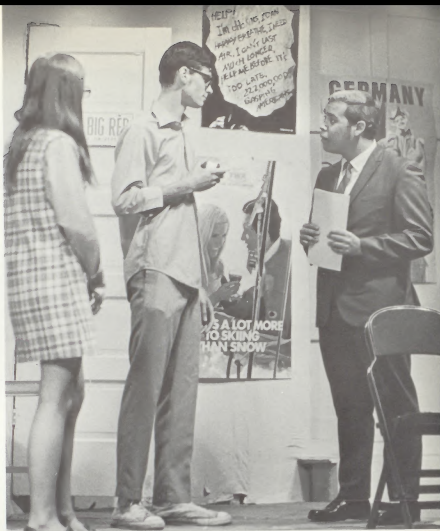

Mr. Hayden poses Steve Pirowski and Diane Military for their Prom pictures.

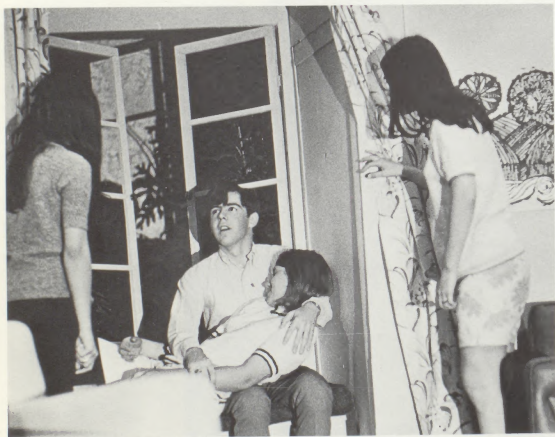

One of the most important memories of the high school years is the Prom. This year's Prom was held May 14, at St. Michael's Hall in Hammond. The 1971 Prom theme was "In the Still of the Night." The mood of the special memory was expressed by a Wishing Well, formal wear, and music by Buddy Presner and his Orchestra. The meaningful evening continued at the Post Prom Party sponsored by the P.T.A. and held at the Log Restaurant.

Nancy Hill (Connie L. Basham) tries to calm down Harold (Dan Evonoff), who is worried about being found in a girls' sorority room.

Professor Droke (Gus Mellado) questions the behavior of Rodney (Kevin Hayes).

Adele (Marie Maldonado) and Cynthia (Cindy Juhasz) find Margaret (Pat Woniwo) unconscious in Harold's (Dan Evonoff) lap.

Mrs. Francis (Debby Phillips) tells Adele (Marie Maldonado) how wonderful it is of the girls to want their room cleaned.

The boys explain to Professor Droke why they were using the girl's kitchen facilities.

Mrs. Holmes, (Chris Sogala) the housemother, listens as Nancy's mother, Mrs. Hill (Helen Jaworski) tells of the problem with her husband.

## Senior play provides laugh after laugh

They said it couldn't be done. But it happened, May 21. The Senior Class presented "Boy Wanted", a three act comedy by William Roos.

Have you ever thought of how hard it would be to hide, in a girls' sorority room, not one, not two, but three boys? Well, the day before graduation Nancy Hill (Connie L. Basham) hadn't finished her speech, and Cynthia Moran (Cindy Juhasz) didn't have a date for the prom, and they had to hide Harold Rollins (Dan Evanoff), Fred (Carl Duney), and Rodney Foulkner (Kevin Hayes). Things turned out well though, as Cynthia got a date for the Prom, and Mrs. Holmes (Chris Sogala) was not fired.

Other cast members were Ken Pitts as Mr. Hill, Helen Jaworski as Mrs. Hill, Marie Maldonado as Adele Carpenter, Gus Mellado as Professor Droke, Debby Phillips as Miss Francis, Sally Navarro as Doris, Pat Wania as Margaret, Roberta Blashill as Linda, Dave Tunis as Mr. Flynn, Henry Mendoza as Mr. Rollins, and Linda Nicpon as Mrs. Rollins.

Nancy (Connie L. Basham) instructs Harold (Dan Evanoff) to go into the closet and put on a robe so she and Cynthia can sew a patch on his pants.

Bill Conner congratulates Steve Pirawski upon his receipt of "Best All Around Senior Athlete" trophy.

## Sports banquet entertained by coaches' secrets told

After four years of hard work athletes are honored at the All Sports Banquet. This year's banquet was held May 27, at Tiebel's Restaurant in Schererville. The guest speakers were major letter winners of each sport.

Four special owards were given to seniors. Terry Buzea was given the Scholastic Achievement Award, and Lindsey Smith the Best Mental Attitude Award. Most Valuable Senior Athlete was awarded to Eric Bowman; after he represented Tech in the State Swimming Finals for two years. Steve Pirawski was named Best All Around Senior Athlete for his

participation in football, and baseball. Most promising Freshman award was given to both Alon Stankovich and Andy Vouter.

Awards for the spring sports were also presented. In track, Robert Franks was awarded the Most Valuable and Best Mental Attitude. Joe Dziadon was named Most Valuable in soccer, and Bill Putney Best Mental Attitude. Baseball gave Steve Pirawski the Most Valuable Award and Mike Mysak the Most Improved. Phil Jonik awarded as Most Valuable player and Andy Vouter and Bruce Riebee Most Improved players in golf.

Mr. Vieou gives baseball rundown at All Sports Banquet.

Not all awards given at the banquet were serious; here Mr. Frazier awards "Puttcha Puttcha" to Coach Berealos.

Mr. Snow presents Mr. Berealos, retiring basketball coach, an award of appreciation from the Adult Athletic Association.

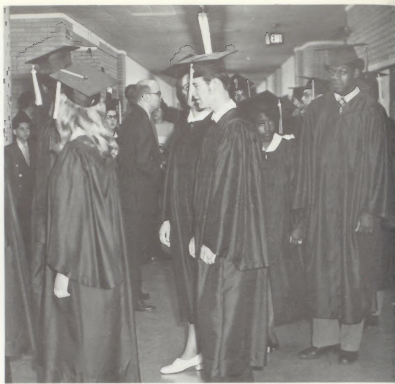

Ted Korras, former Bear All-Pro guard, entertains athletes and guests with a resume of his professional career.

Proud athletes glance at their own awards as they wait for the announcement of the "Best All Around Senior Athlete."

Pensive moments are exemplified by parental expression as they see a twelve-year involvement come to its end.

Down the aisle toward the stage moves the processional, as '71 grads come together for the last scheduled occasion.

## Class of '71 ends stay at Tech with long-

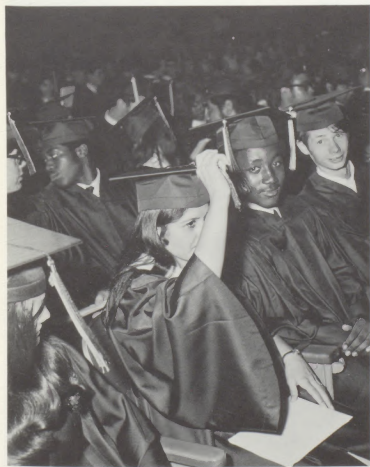

Hard-earned diplomas are significant of four years of work by more than 250 seniors.

Audience participants join in as Nancy Reed leads in the singing of "The Star Spangled Banner."

## awaited graduation

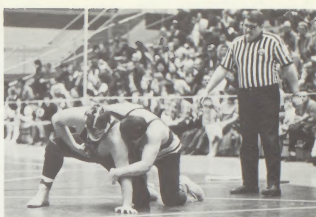

Traditionally the tassel is changed from left to right upon the receiving of each diploma.

Exuberantly, Bill Conner rids his gown with an expression that proves not all moments are sad.

## Athletes and records

Blood, sweat and tears.  
 All symbols of a year's sporting actions.  
 Two over-sized boys stumbled from  
 a football field.  
 Faces wet from the heat.  
 Shirts carrying stains of blood.  
 Eyes filled with tears.  
 The agony and pain just for a victory.  
 Not just a victory but a Tiger Victory!  
 One word which makes all the difference  
 in the world.  
 The heat then becomes bearable.  
 The blood-stained shirts are washable.  
 And the tear-filled eyes compassionate.  
 We've won!  
 Each sport is competitive.  
 Whether it be football or golf.  
 The constant fear of losing  
 and hopeful enthusiasm of a victory.  
 Sports which make the school partly  
 what it is.  
 Each student becomes a player.  
 Each one has the player's feelings.  
 They feel his struggle.  
 They strengthen his defeat.  
 And they cheer his fainthearted victory.  
 Yes the audiences cheer the players on.  
 Little time is there for thought.  
 Each move is an automatic impulse.  
 Driving on to a TECH TIGER VICTORY!!

E.C. Washington player aides Dave Brown in keeping his balance.

Dave Brown's momentum enables him to break through tackle.

## Inexperience hinders Tiger season

Steve Pirowski plunges his way through Govit defense.

Row 1: T. Hamrick, J. Martinez, D. Rogers, D. Rarick, S. Pirowski, B. Conner, D. Brown, D. Martin, T. Maneta, J. Fulk, L. Smith, R. Daumer, L. Russell, L. Lukowski, G. Payton; Row 2: J. Preda, Row 3: M. Rose, D. Leath, D. Sheeks, J. Synko, C. Fenderson, D. Baran, E. Hernandez, R. Martinez, G. Pomonis, G. Braderick, J. Flores, B. Miles, E. Anderson, J. White, G. Sanders, B. Seifert, D. Medcalf, Row 4: T. Piescholo, B. Leeth, T. Engle, L. Lopez, B. Wilbert, S. Hoffman, B. Putney, J. Winters, M. London, S. Wojciehowski, T. Nelson, S. Rorick, G. Hannan, B. Ortiz, B. Green, L. Chase, J. Lockett.

Tied for a fifth of eight places in the Lake Shore Conference, Coach Lentvorsky was surprised at a record of four wins, five losses, and one forfeit considering his team was hindered by inexperience. Another cause of weakness in the Tigers was not having a home field. This year home games were played at four different locations.

Tech fans watched their team battle to total a close 112 points to their opponents 115 points. Together they gained 1,348 yards to the opponents 1,643 yards and were penalized only 323 yards compared

to 505 yards by the opposition.

Post season records indicated the team was aided greatly by two sophomores: Bill Miles led the Tigers with four fumble recoveries and Greg Sanders grabbed ten passes to lead in pass receptions. Senior Mel Burks proved to be an asset with 119 carries and six touchdowns. Ted Moneta showed leadership with a total of 44 tackles. Dave Rarick was also awarded honors when he was named a member of The Times All Star Defensive Team.

Both the B-team and freshman football teams suffered a season of losses, but the emphasis was not placed on winnings, just participation. It gave the players the opportunity to demonstrate their skills to the coaches.

Originally B-team had ten games scheduled, however only three games were played. The freshman team had a little more success as the season ended with a record of two wins, five losses, and one tie.

# Frosh-Soph—Conference, City Champs

2: A. Vauter, C. Bonik, M. Ludwig, L. Fentress. Row 3: Coach Shrycak, F. Jimenez,  
E. Reed, A. Stankovich, D. Angelucci.

Third Place in the Western Alliance Conference was shared by Tech, Gavitt, and Clark. Tigers ended the season with a 4-3 record. With only two returning lettermen, the harriers managed on eighth place out of 20 teams in the Sectionals. This year five awards were granted to the harriers. Joe Ramirez proved to be the surprise of the Season. The Most Outstanding Achievement Award was presented to John Berdine, Most Improved was received by Steve Ridgley, and Bob

Angelucci was awarded Most Reliable. The most significant award, Most Valuable, was given to Bruce Doell.

A large percent of this year's team was underclassmen. A Frosh-Soph season record of 7-0 enabled them to place first in the Western Alliance Conference. Another important title won by the Frosh-Soph squad was City Champs. Sophomore John Berdine set a Frosh-Soph school record.

Determination can be seen on the face of Bill Brown at Forsythe Park.

Tired Joe Ramirez takes long strides during Conference Meet.

## Tech overcomes Lake Central, Roosevelt

Returning as coach, Mr. Emlund led the Tech matmen to a 2-9-1 season record. The grapplers were stronger than their record might suggest, considering the team was almost completely composed of underclassmen. The young team learned as the year progressed and were a match for every team. Hard work and pride was the determination that made the team a team.

Tiger matmen placed a strong fourth in the E. C. Washington Invitational; Lindsey Smith (167) took a first place and Wayne Peterson (Hvy.) ended fourth. Smith and Peterson also led the way in the Conference Tourney with first places. Joe Ramirez (112) followed with a second, John Ramirez (105) with a third, and Rudy Martinez (138) and Freshman Lee Smith (98).

Attitude plays a big part in any sport, and Lindsey Smith was worthy of receiving the Best Mental Attitude Award. As captain, he displayed ability and also concern for his teammates. Being the only senior on the team, it seemed natural he would lead the team; his season record was 10-2.

Last season Joe Ramirez only won two matches; this season his record was 9-2-1.

The trophy for the Most Improved was awarded to him.

A total of 117 points were scored by the entire team. Forty-three of these points were made by Wayne Peterson. His 9-3 record of which eight of his victories were pins, accounted for his being named the team's Most Valuable Wrestler.

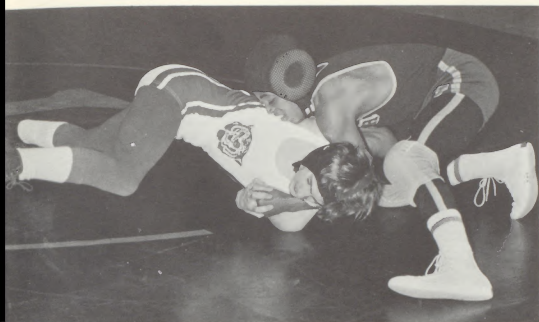

The B-squad's record was also 2-9-1. A

new experience for the freshmen was a frosh wrestle-a-round. This provided the freshmen with wrestling experience. In the Freshman-Sophomore City Tournament, the matmen placed fourth out of eight teams.

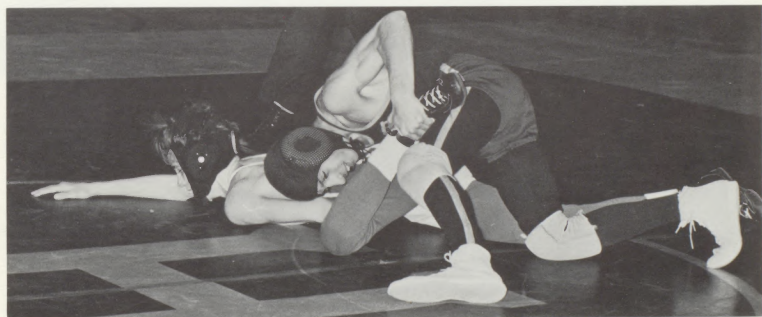

Freshman Dave Angelucci received the "Most Outstanding B-Squad Wrestler" award this season.

Double wrist hold enables John Ramirez to ride opponent.

Lee Smith works for pin with a double-trouble combination.

Hammond High lies victim as Joe Rameriz demonstrates the arm and ankle ride.

Columet takes down Wayne Peterson during Sectionals.

## Morton meet highlights tankmen season

Eric Bowmon exhibits freestyle which enabled him to go down state.

Row 1: T. Zlotorich, J. Cyr, G. Maman, F. Mooney, K. Klem, B. Harrold, J. Russel.  
Row 2: B. Miles, J. Anderson, B. McBride, D. Anderson, D. Kennedy, E. Bowman, D.

Becerra, D. Wolfe. Row 3: B. Harrold, R. Workman, J. Mooney, B. Sobkowicz, J. Fulks, B. DeBold, D. DeBold.

Experimentation can best depict the tankmen season. Lacking depth, the team relied to a great degree on the performances of freshmen and sophomores. The highlight of the season was a fourth place in the freshman meet at Morton. Placing behind only Munster, Bishop Noll, and Griffith, our frosh beat all Hammond teams.

Tigers splashed their way to another fourth place in the Griffith Invitational. They placed behind Morton, Griffith, and Portage. In the 200-400 yard Freestyle, Eric Bowman set a new meet record. The season ended with eight wins and seven losses. Three of the seven defeats were lost by very close scores: HHS 50-45, Morton 51-44, and Highland 51-44.

Hard work earned 14 points to place Tech in fifth place in Sectionals at Munster. Sectional qualifiers were: Kennedy, Wolfe, Sobkowicz, Fulks, Bowman, Anderson, Mooney.

The first four-year swimmers were seniors, Eric Bowman, Jerry Fulks, and Daryl Kennedy. Eric Bowman traveled to the State Finals twice to represent Tech, and holds six school records. Jerry Fulks, a member of the 400 yard relay team, and Daryl Kennedy, backstroker, both hold school records, also.

Senior Daryl Kennedy practices backstroke.

Row 1: E. Reed, R. Madeko, C. Draper, L. Smith, A. Stankovich, Row 2: M. Sangster, C. Bonik, R. Horrold, M. Werth, G. Wallace, R. Qualls, E. Hernandez, Row 3:

Coach Robinson, R. Qualls, T. Dick, F. Marisett, R. Joblonski, G. Cherry, B. Martin.

Pole vaulter Rudy Martinez easily clears 10'6".

Derek Hudson hands baton to Bruce Doell for fourth leg of distance medley.

Dave Martin and Bob Franks try desperately to cut Marton apponent's lead.

# Tough competition found by cindermen

Row 1: J. Ramirez, S. Ridgely, B. Angelucci, J. Ramirez, B. Doell, D. Tunis, Row 2: G. Honnon, R. Franks, D. Hudson, D. Martin, S. Preda, B. Reed, R. Modaka, Row 3:

The 1970-71 track team managed only a mediocre season for Coaches Robinson and Shryock.

Only one record was broken during the season. Robert Franks, Dave Martin, Steve Preda, and Dave "Smokey" Brown teamed up in the 880 yard relay to set a new mark of 1:31.0.

Tech placed second in the Indiana Lake Shore Conference. In the long jump, Leonard Walker placed second, and Derek Hudson capped the same place for his efforts in the 880 yard run. A second place was also taken by Bruce Doell in the two mile run, and Rudy Martinez cleared 11'0" to get first in the pole vault.

Row 1: B. Swain, M. Writt, M. Synko, P. Gillion, C. Wehmer, M. Gratunik, Row 2:

Inexperience proved to be the downfall of Tech's golf team this year, managing only a .250 winning percentage. Although two of the twelve golfers were returning lettermen, the rest of the team was made up of freshmen, or first year sophomores and juniors.

After losing the first four matches, each by an increasingly closer score, the linksmen pulled out their first win by six strokes over E. C. Roosevelt. Again the team fell into a slump, losing their next three matches, but finally won again, 177-186 over Clark. The team kept up this pattern for the remainder of the season, never gaining two consecutive victories. The season record was only 6-18, but valuable experience was given to the team's rookies. Despite the low record, Tech earned third in the conference.

Phil Janik led the Tigers in most of the matches, earning him the title of Most Valuable. Most Promising was awarded to Bruce Riebe, with the Most Improved honors being shared by Gerry Stolarz and Andy Vauter.

Gerry Stolarz records score after sinking putt at Lake Hills.

Velasco, Row 3: D. Baron, M. Smith, M. Horvath, B. Putney, L. Lentz, T. Frisk, J. Allen, L. Lopez, M. Sanders, T. Tyburski, R. Davis, V. Emigh, Coach Shields.

Sophomore major letter winner, Jose Ortega, tries to keep ball from Hammond High offense.

Last year, Tech's soccer players earned the title of City Champs, and in 1971 the game became Tech's tenth major sport.

Hindered by the loss of regulars, Coach Shield's men could only struggle to a record of one win, six losses, and one tie. The losses were sandwiched in by a season opening tie and a last game victory. The tie was against Gavitt and went into two overtimes, but could not be broken.

The most exciting contest of the season was the second meeting with HHS. The Wildcats scored a goal during the regular time period, but had it called back. No other scoring took place during regulation time, sending the game into overtime. Bill Putney talked on a penalty kick, but had to re-shoot because the wind moved the ball before the kick. The second kick was easily stopped. HHS scored later in the second overtime on a half field shot, and with the time running the game fell out of reach, the final score 1-0.

The only win of the season came in the last game. Tech's three goals beat Clark's one, but Tech still had no chance of making the playoffs or of retaining their City Championship.

Row 1: T. Smith, E. Anderson, C. Navarro, B. Plawicz, G. Nawracaj, Row 2: J. Hildreth, D. Rarick, G. Scasny, T. Buzza, B. Conner, M. Steifel, T. Kaltrunchik, Row

3: Coach Quigg, S. Pirawski, L. Chase, J. White, M. Myszok, S. Wojciechowski, G. Sanders, Coach Vieau.

### HIGHLAND TOURNEY

4	Whiting	0
4	Highland	5

The nation's most popular spring sport is baseball, and at Tech this is no exception. This season see-sawed with wins and losses, as the squad compiled a record of eight wins, ten losses and one tie. Steve Pirawski played a big part in the 1971 Tiger attack, getting the most hits, scoring the most runs, and leading the team in runs batted in.

Coaches Vieau and Quigg depended a great deal on the experience and ability of their six seniors: Steve Pirawski, Bill Conner, Terry Buzza, Dave Rarick, Greg Scasny, and Charlie Navarro.

Although leading the Indiana Lake Shore Conference in home runs, Tech couldn't manage to score as many runs as were scored against them. Tech had 84 runs, as compared to the opposition's 92. Four of Tech's losses were by very small margins. The Tigers did manage to capture second place in the Highland Tourney, losing to Highland in the final by one run, 5-4.

After catching foul pop, Larry Chase turns quickly to thwart opponent's attempt at advance.

Dave Rarick pulls up at third base after ball eludes Marton catcher.

Steve Pirowski is engulfed by jays team members after whalloping game winning three run shot against HHS.

Teammates rush to assist as Charlie Navarra makes a diving attempt at fast dropping ball.

Row 1: T. Baldwin, F. Jimenez, C. Camer, J. Smith, D. Shelton, D. Fultman, Manager—M. Smith; Row 2: R. Thomas, B. Riebe, J. Williams, R. Hall, A. Patton, L.

Fentress, G. Cherry; Row 3: D. Comp, E. Shelton, K. Hickman, A. Vauter, V. Watson, M. Maneto, J. White, Coach Shields.

38	Illiana Christian 44

Tom Baldwin breaks Illiana Christian's defence while leading toward the basket.

John White drives for an easy lay-up.

Larry Chase deflects a Hammond High pass.

Charles Stringer and Larry Clapton fight over the loose ball while T.F. North watches.

With a superb season this year, for background, next year's outlook can only be that the Tigers will be where the competition is.

The all-victorious first six games for the young Tigers were followed by the Holiday Tourney. Govit's Gladiators, first to be contested in the tourney, offered little challenge as the Tigers slipped by 57-29. The winning streak grew through the margin lessened later in the tourney with a close 54-53 game against Clark.

Tech, now in the finals and pitted against E.C. Roosevelt, enjoyed bringing home the trophy after a final score of 54-53.

A change in personnel caused a string of losses for the team, but the reserves then pulled themselves together and started winning games in Tiger fashion—

 Height: 6'2" Weight: 152 lbs.  
 Position: Forward  
 Kevin has played basketball at Tech for two years. He doesn't plan to attend college. He plans to work at Rand McNally, and venture into printing industry.

Standing: T. Smith, R. Franks, R. Winston, L. Chase, J. Bacha, R. Walker, L. Elbaor, R. Boyd, C. Stringer, B. White, K. Hayes, T. Buzea, G. Sonders, A. Walker; Kneeling: M. Rose, Mgr., Coach Bereolos, M. Dills, Mgr.

## Tigers work hard to strive for success

An exciting 79-70 victory over the Lake Central Indians enabled the Tigers to close the season with an even 10-10 record.

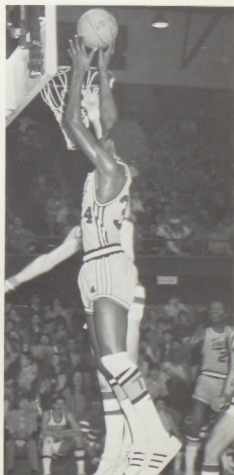

Off to a good start, with a 71-49 victory over Merrillville, Tech's next outing was against the Bishop Noll Warriors, in which a close 70-68 game gave us our first loss of the season.

In the City Tourney, Tech was pitted against last years sectional winners, the Clark Pioneers. In overtime, Clark took away Tech's chances for the tourney trophy, with a 68-65 score.

The season continued with victories over East Gary Edison, Gavitt, and a 80-74 victory over Hammond High. The Morton Governors slipped by us in a close 57-55 thriller.

In the sectionals, the Tigers drew the Morton Governors to play in the second bracket. When regulation time has expired, the score was tied at 58-58. This gave us three minutes to try to overcome the Governors. When the overtime had ended, the Tigers' hopes for the sectional crown had disappeared, with a final 64-60 score.

Basketball players honored at the Winter Sports Banquet were Leonard Elbaor receiving the Most Valuable Player award. Lenny was also presented a trophy for the Best Rebounder. Terry Buzea received honors for the Best Free-Throw Percentage, and for the Highest Scholastic Average. The Best Mental Attitude trophy was presented to Richard Boyd. Also, Robert Franks was awarded for the most assists during the past season.

Buddy White goes up high over the rim for a lay up against Morton in the sectionals.

TIGERS	OPP.
71	Merrillville 49
68	Bishop Noll 70
57	Whiting 39
72	T. F. North 58
63	Hobart 60
55	E. C. Roosevelt 77
65 City Tourney:	Clark 68
81	Gavitt 67

55	E. C. Washington 112
79	Gavitt 54
80	Hammond High 74
55	Morton 57
79	Lake Central 64
60 Sectionals:	Morton 64

During Sectionals Greg Sanders sets up play while looking for an open man.

Ricky Walker throws an outlet pass to John Bacho who's in the open.

## Varsity finish with a .500 season

Richard Boyd fights for rebound against the Merrville Warriors.

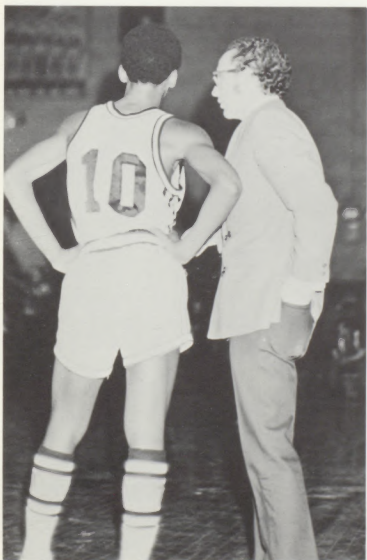

John Bacho deflects a basket from Lake Central by tipping from behind.

After pulling down a rebound, Leonard Elbaar starts down court.

Cooch Frazier gives Robert Franks important instructions on breaking the press.

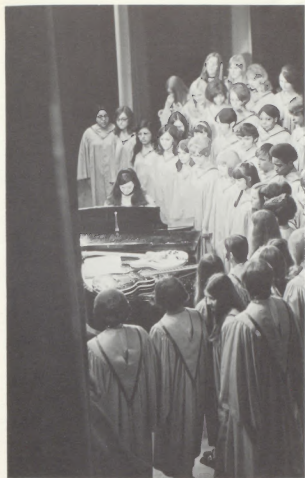

Richard Boyd tries a left handed hook shot from the base line.

A perfect screen enables Ron Winston to drive toward the basket.

## Groups and projects

We got away from it all—

In an organization some were able to find themselves.

Each phase of school plays a significant part in each student's life. But clubs was one of the main points.

To be able to leave the hour after hour complexities of classes and homework.

To be relaxed and carefree.

Clubs offered this to students.

Each boy or girl searching to find his place in an organization.

For some it was yelling at Pep Club, Letting stream all inner feelings.

One shrill scream of "Fight Tigers!"

Or for the other individuals:

They were able to find tranquility in biology.

Yes, just to study the unseen matters of life under a magnified lens.

Each student varying in club choice.

Yet each obtaining the same inner satisfaction from their chosen enjoyment.

Clubs, organizations, groups.

Each word signifying unity.

A sense of belonging.

The knowledge of enjoying.

## Band begins year under new direction

Linda Hall, sophomore, was chosen Spring Queen at the dance sponsored by Girl's Club and Hi-Y.

## Hi-Y, girls club team together for dance

The efforts of Dove Schreiner, President of Hi-Y, have been successful this year. The Hi-Y Club collected food during Thanksgiving Week, and arranged a nice basket for a needy family. They sponsored a Spring Dance with the Girl's Club; it was held April 9. Music was provided by The Enchanters, from 7:30 to

10:30. Miss Linda Hall was chosen Tech's Spring Queen.

With a knack for decorating, the Girl's Club decorated the cafeteria Christmas tree. A committee of girls volunteered their services. Their annual Christmas Tea was a worthwhile event which took place in the cafeteria Monday, December 21, at 4 p.m. All faculty members were invited.

Beeson, R. Workman.

The Fifth Annual Employer-Employee Banquet was held April 29, at San Remos Restaurant. The theme for the evening was "Thanks for the Opportunity." This banquet is given each year by student trainees on the Distributive Education program, the Cooperative Office Education program, and the Industrial Cooperative Training and Work Experience program. It is given in honor of all the employers who made it possible for students to gain on-the-job experience.

Sharon Scott acted as mistress of ceremonies for the night, and the honored guests included Mr. A. Adaska, Dr. A. Kaye, Dr. A. B. Hatch, Mr. Parson, Mr. Max Mason, and Dr. F. Sanders. The main speaker for the night was Mr. O. J. Creapeau who is the general manager at Inland Steel.

Dinner was served, followed by speeches and the presentation of appreciation certificates, given by the students to their company. Also given by the job coordinators was an award for the outstanding student of the year in each program. In DE, Pam Nightingale received the trophy, in COE, Laura Eubanks received the award, and in ICT, Larry Beeson received the trophy. The Work Experience award was given to Darryl Kennedy. Entertainment for the evening was provided by the Tech Folk Singers.

Mr. Stecyk congratulates Darryl Kennedy upon receiving the Work Experience award.

V.I.C.A.'s display took first in state competition and was displayed at the national convention during June.

V.I.C.A. Club was kept busy this year with a number of projects. They started off their year by distributing Christmas baskets filled with food to a needy family.

Twenty-two boys went down to Indianapolis in April and competed in the State Contest for Electrical Trade. Of the 22 boys from Tech six awards were brought back, including first place in display against pollution.

V.I.C.A. also donated their support to the Folk Singers trip to Europe.

Besides helping the Folk Singers one of their members participated in the walk for the retarded children.

The club also took two field trips. They visited the Great Lakes Naval Training Center, Electronics School, and then went to the IBEW 697 Apprentice School.

Pom-Pon girls perform routine during the Christmas Parade.

The "Cliques-Shoys" perform at the dance sponsored by the Pom-Pon girls after the Spring Carnival.

A change of sponsorship and yearly try-outs placed Pom-Pon girls on the front line of Tech's activities this year.

Twenty plus girls were chosen from many more, being judged on their ability to keep time to the music, their interest in extra-curricular activities, and their maintenance of an acceptable grade point average in classes.

Practicing during regular club schedule as well as after school, the Pom-Pons performed at Homecoming, the Christmas parade, and all home basketball games.

To earn money for transportation, uniforms, and club expenses, the girls sponsored two dances, one after the Spring Carnival.

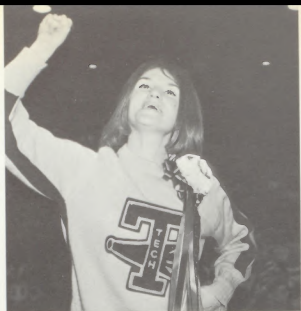

Pom-Pons are sponsored by Miss Mary Kay Stark.

Good turnout of student body is shown at earlier Pom-Pon sponsored dance.

Chris Sagala

Charlene Orschowicz,  
Cheerleading Captain

## Varsity cheerleaders

Wanda Story

Kandi Strempe

Karen Karnafel

## B-Team cheerleaders

Kneeling: Marcia Dan, Sherree Burnett—Captain;  
Standing: Dwinder Liggins, Cindy Sloan, DeeAnne Kennedy.

## Freshman cheerleaders

Row 1: Joan Szanyi, Charmaine Johnson,  
Pam Futtrell, Pam Goodpaster, Gloria Ull-  
stam, Sharon Stevens.

LETTERMEN: Row 1: Left to right, B. McBride, R. Mendoza, M. Rose, J. Fulks, S. Ridgley, B. Doell, R. Solidero, B. Conner; Row 2: J. Mooney, J. Ramirez, B. Sobkowicz, D. Kennedy, L. Smith, R. Doumer, C. Mavorro, J. Ramirez, G. Scosny;

Row 3: D. Rorick, S. Pirowski, D. MacLin, T. Moneto, L. Elboor, J. Hildreth, T. Lukowski, Q. Villorruel, Coach D. Robinson.

## Lettermen now boast membership of 63

Spring initiation into Letterman's Club consisted of candidates dressing in diopers during the school day and at the carnival.

Freshmen may have looked twice this fall when numerous boys came to school with legs showing, adding a few attractions that were not there before. With questioning looks they soon found out that it was one of two lettermen initiations taking place. For the other initiation in the spring, the boys were required to dress as babies. Most come to school with diopers, bibs, bottles and rattles in hand.

Getting up to this point is not easy. The boy has to receive a major letter in any sport he participated in. After successfully doing this he is eligible to enter the club after his initiation. He may also receive a free letterman wind-breaker if he earns 150 points.

The club now consists of sixty-three members, sixteen of which are seniors. Each one finds personal pride in conquering the many tasks set before him to achieve the title "letterman."

But like most clubs, it is not all work. The club visited Chicago Sportman's Show, and another day they went to Chicago and rooted for the Cubs. The lettermen also sponsored a dance for the Tigers after the Tech-T.F. North basketball game.

The two men that sponsor this club are Coach Jamrose and Coach Robinson.

Several girls form a line at the dance which the Lettermen sponsored December 5.

LETTERMEN: Row 1: Left to right, D. Wolfe, R. Ortiz, J. Wilczynski, J. Synko, S. Wojciechowski, C. Fenderson, L. Smith, J. White; Row 2: L. Lopez, B. Miles, D. Leeth, T. Zlotorich, J. Berdine, E. Anderson, G. Sanders, L. Chase, J. Martinez; Row

3: Mr. Jomrose, Sponsor, R. Martinez, T. Homrich, T. Hurd, J. Griffith, J. Wilczynski, B. Pisowicz, T. Koltunichik, W. Peterson.

## Classes and shops

We entered a school of vocation and opportunity for further education. Each giving us the chance to learn and exert ourselves in our chosen field.

We had faced a time where decisions must be made.

We could no longer depend on others. We must choose what is best for ourselves.

Will we be secretaries, machinists, or will we be teachers or doctors? So many fields to choose from, so much to learn in the four years that lie ahead of us.

The academic classes provided subjects to prepare us for the future or maybe college. Yet not every one's dream included college.

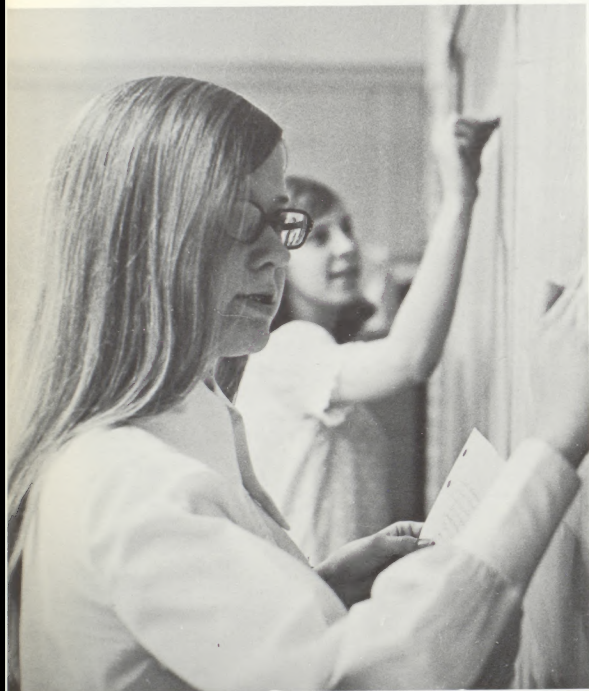

Therefore, many turned toward the various shops.

These shops enabled us to go into a desired vocation. Which ever path we chose to follow all were striving for a goal.

Each one  
in a different direction.  
And each one  
for a different reason.

## English requirements met; communications stressed

Carol Ancis studies sentence structure at the board in English 2.

Throughout our school years English has been one of the subjects that was stressed as important and necessary. English is the key to survival in today's rapidly expanding world. To be able to communicate in our jobs in future careers and in further education we must obtain and learn all of the skills of the English language.

At Tech all the students are required to take at least six semesters of English. Most of the students, however, take eight semesters of English. Not only do students learn grammar and proper ways of expressing themselves in writing, but they learn verbal communications also.

In these speech classes students overcame their fear of public speaking. They are able to bring across their opinions correctly and profitably. Students enjoy the classes that offer the chance to read various short stories and other types of literature.

Many students are interested in various phases of journalism. Therefore, journalism can be taken in place of English 5. Later these students may branch out into working on the school newspaper or yearbook.

English 4 students are aided by Mrs. Benson.

Cathy Simmons, Charles Selligman, and Betty Buczek, work in their groups in Miss McCort's English 6.

Mrs. Kackley explains to her English 7 students how to work the tape recorder so they can listen to their speeches.

To let students see and understand the rapidly changing world they are given the opportunity to take social studies.

Students begin with geography class. They learn facts about our surroundings and people. They learn about other countries in our world and these countries' beliefs and customs.

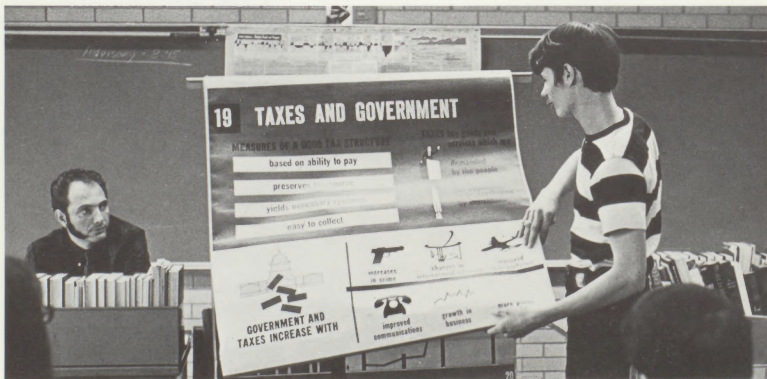

Tech offers world history and U. S. History. The present current events are covered as well as the past happenings.

Senior year brings along economics and government. These students study the basic fundamentals of our country's economic system and the rules and regulations of all types of government.

Johnny Hildreth and Mr. Clapman discuss position of continents in vocational world history.

## Social studies relates world happenings

Larry Mackowiak explains taxes and government to Mr. Wesley's economics class.

Mike Naajin and David Medcoll review their tests in world history.

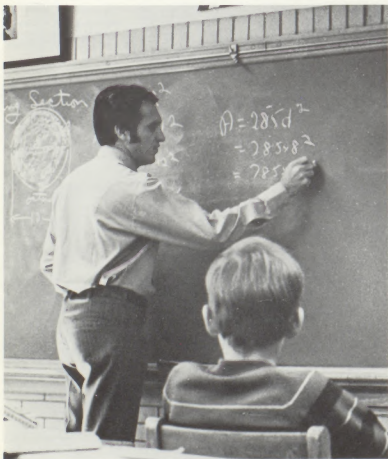

Tony Smith appears discouraged over a problem in his U. S. History assignment.

Wally Pearson and Barbara Noglic discuss a problem in their analysis class.

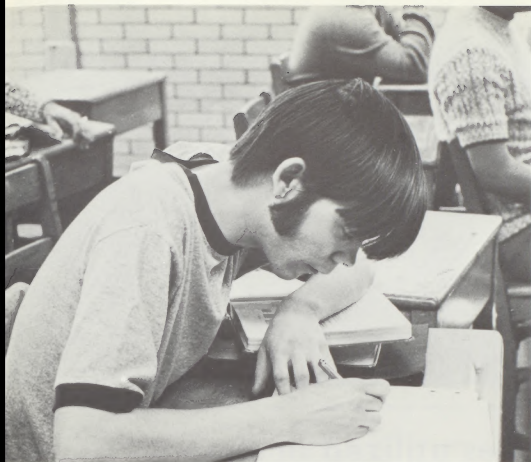

## Math classes always yield challenge

Mr. Coppolletti explains the solution of an area to one of his algebra students.

Dolerene Burczyk assists other Math 3 students in solving problems on the chalk board.

Richard Raurley concentrates on his assignment in Voc. Math 3.

Math courses at Tech are not just compiled of one type of general math. There are varied classes of math. Each one designed to teach a more advanced type of math.

Algebra, trigonometry, geometry, advanced algebra, and analysis are offered at Tech to all students. Many take the advanced classes as preparatory subjects for college. The students seeking future careers take these advanced classes so they may have a better chance of obtaining a better paying and more challenging position.

The knowledge that is obtained can be used in all situations that occur in everyday complexities.

Students question Mr. Murzyn about their algebra problem.

Examining slide specimens in Biology 2 are David Raderick and Glenn Ashmore.

## Scientific principles utilized in class

Tech students have a variety of science classes offered to them. Those on the technical course are required to take biology, chemistry, and physics. Vocational students are required to take general science and physics. Students in all science classes participate in class discussions and experiments.

Health and safety is a one-semester course usually taken by freshmen. In this class students are introduced to basic body functions. This class serves as a basic background for more advanced science classes.

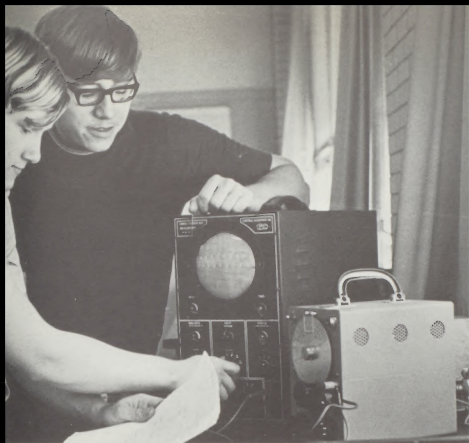

Biology is taken by all students for one year. In Biology, students have an opportunity to become familiar with biological terms and equipment. Students learn how to use such equipment as microscopes and models of plants and organs. There is also a growing room provided to the biology student. This enables them to follow the growth and development of small animals and plants that they are responsible for.

Chemistry enables students to experiment on their own, following the basic rules they have learned about different formulas. Students have lab periods in which to work on their own as well as class study and discussions.

Physics is an advanced science class offered to students at Tech. In this class students are introduced to the basic concepts of physical science and other related principles. Students are able to experiment on their own, as well as participate in class discussion and projects.

In Health and Safety Robert Santos, Joyce Loutner, Margie Chauarita, and Joyce Gray discuss the features of a cat brain.

Oscilloscope is used by Jeff Bailey and Rich Ballard to test high frequency sound waves in physics.

Joe Ramirez and Jerry Schaw experiment with glass bending in Chemistry 2.

In chemistry Bob Miller sets up a titration experiment.

Mrs. Blanford aids Belinda Little with a question in Spanish 2.

In psychology class students heard several lectures. Here they are listening to guest speaker Mr. Stewart Swenson, psychologist of school city of Hammond.

## Psychology offered at student demand

Traditional customs are also reviewed in Spanish classes. Spanish IV student, Bill Conner tries a sombrero on Linda Tyler.

Foreign languages are interesting and popular with many students. Spanish is offered to students at Tech to give them a chance to learn a different language and become familiar with different customs. Those students on a college preparatory course are required to take Spanish, and many other students take it as an elective. Spanish is usually taken for two years, but in certain cases may be studied beyond that.

Psychology was offered at Tech for the first time this year. Students dealt with social and economic problems and their effects. They also explored the human mind, its abilities and its drawbacks. Behavior patterns in people, and the effect of mental retardation on the mind were also studied. Through the class of psychology, students were better able to understand themselves and others.

# Gym develops stamina, sportsmanship

One of the many aspects of gym class is tumbling. Pyramids has proved to be one of the most enjoyable activities performed.

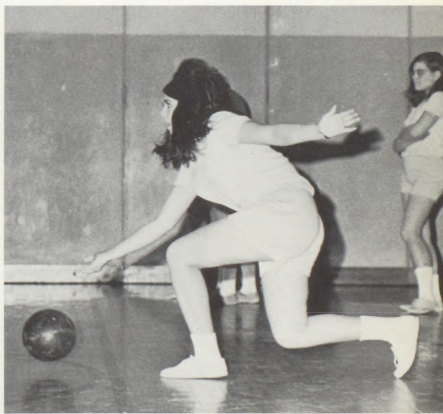

Physical fitness is a must for all students. Therefore, at Tech all students are required to take one year of physical fitness classes.

Boys participate in football, baseball, basketball and some swimming. Besides learning the rules for the various games, they learn work together as a team and learn the importance of good sportsmanship, which will be valued to them now and in the future.

Girls in gym classes participate in baseball, volleyball, basketball, and kick-ball games. They also take part in gymnastics, which includes using the parallel bars, the horse, the rope, the trampoline, and the mats. Girls, too, learn the importance of teamwork and good sportsmanship.

Stability is a must for a chest-stand.

Margaret Watters releases the ball down the gym floor in an attempt for a strike.

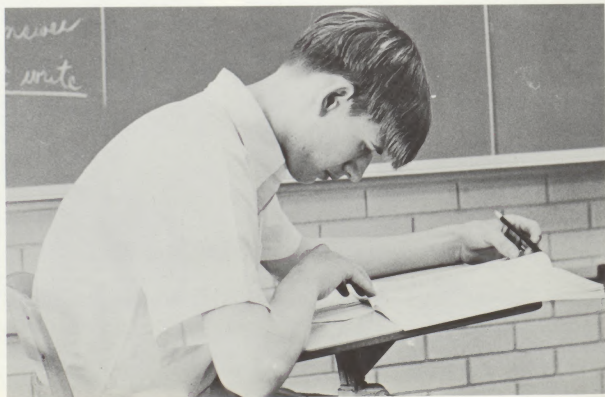

Each year many students are placed in Tech's developmental classes. These classes enable the students to become better skilled in various subjects. The content of each subject is basically the same as the regular classes. The developmental classes, however, are taught at a level where the student can obtain the material more clearly and at his own capacity.

Each subject stresses its own points bringing out the main ideas of the subject in a way so that the students can obtain the most important ideas. With the knowledge the students get from these developmental classes they are able to carry on in the world of business and future careers better prepared.

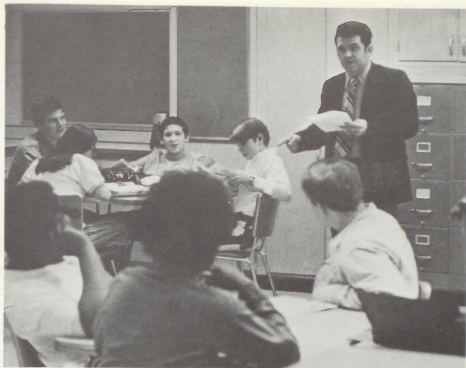

In general shop David Colbert varnishes a shelf.

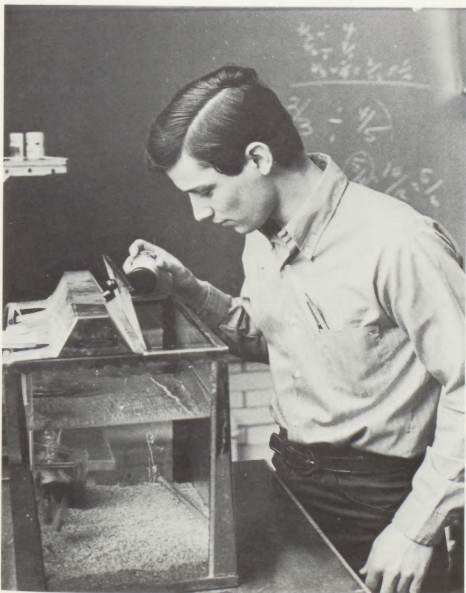

## Classes formulated to fit student needs

Keith Laughlin works on a project in Developmental English.

Mr. Quigg conducts a developmental Social studies class.

In general home economics, Doris Thomas makes use of the mixmaster.

Emiel Bunkowfst feeds fish in Science E.

Bill Uzdaonovich works on a project of his choice in art class.

Joan Szanyi completes a layout in publications.

## Elective studies build character, shape abilities

Several electives are offered to Tech students. Whether they are interested in musical instruments, vocal music, art, or the field of publications, students have the opportunity to participate in classes of their particular interest.

Students in band learn to play various instruments individually and with the group. They also have a chance to gain some experience in performing in front of audiences and on a stage.

Freshmen interested in vocal music can join girls' chorus or boys' chorus. There is also girls' choir, mixed glee, concert choir, and folksingers. Ensembles are included in vocal music groups at Tech.

Anyone in vocal music will feel a sense of accomplishment as he works along with others to create beautiful and worthwhile music.

Art can be an interesting and satisfying field to many students, as they have a chance to participate in art classes whether they are talented or just curious.

Anyone interested in publications, that is, working on the yearbook or the school paper, has an opportunity to enter this field through publications classes. Students have their choice of working on the Tech Times or the Chart in the areas of layout and design, photography, or writing.

In choral music, Miss Snyder believes "practice makes perfect."

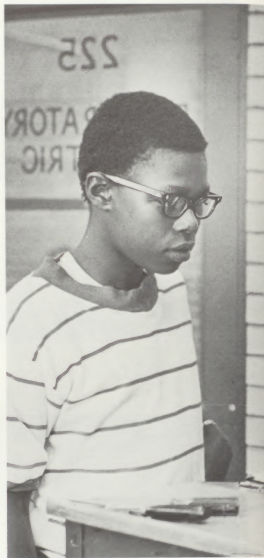

Sanda Jefferson receives assistance from band director Mr. Kocman.

## After trial period frosh boys discover

Mike Grubich attaches hinges to a jewelry box in exploratory woods.

Mr. Brinstock demonstrates on electrical generator to John Wren in exploratory electric.

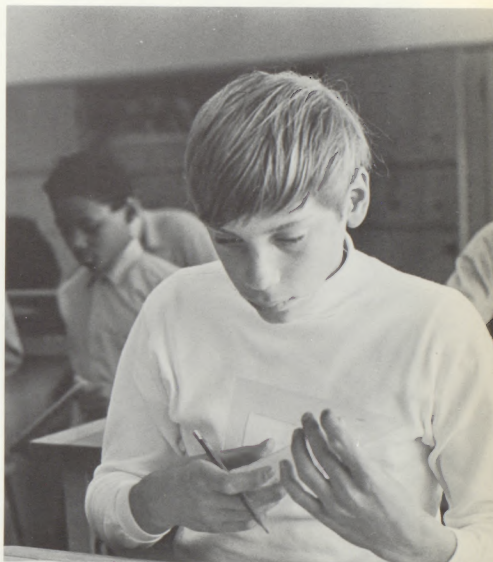

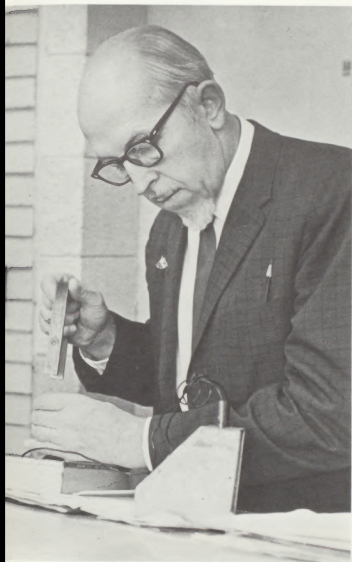

Introduction and limited exploration in the fields of practical vocations is provided in the exploratory shops. Exploratory graphics, metals, electric, and woods shops are required for all freshmen boys. Proper testing and counseling in these shops enables the students to make a suitable choice of the field he wishes to follow in his subsequent high school years. Each exploratory shop is a nine-week two-hour block in time.

Orthographic projection and architectural drawing are explained in exploratory graphics. Also provided is instruction in care and use of instruments.

Exploratory metals gives students an

# most appealing exploratory shop

Stan Skura concentrates his efforts on a project in exploratory drafting.

insight of such shops as sheet metal, foundry, forge, and welding. Bench work and use of machines is combined to complete projects.

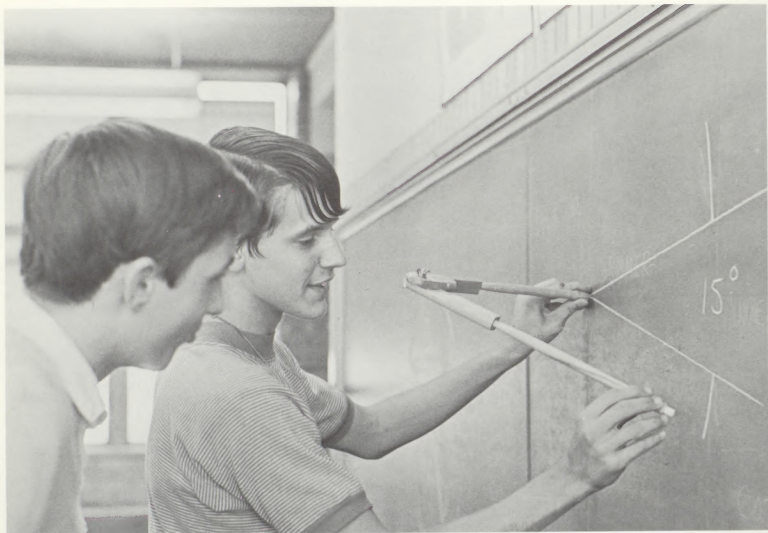

Determining voltage, resistance, amperage and wiring circuits are parts of the work in exploratory electric. Some of the projects include the making of a generator, an electric magnet, and a transformer.

Saws, files, lothes, and plones are some of the equipment used in exploratory woods. Students are instructed in driving nails, drilling holes, sanding, and cutting.

Oxocetolene welding is one of seven areas offered to exploratory metals.

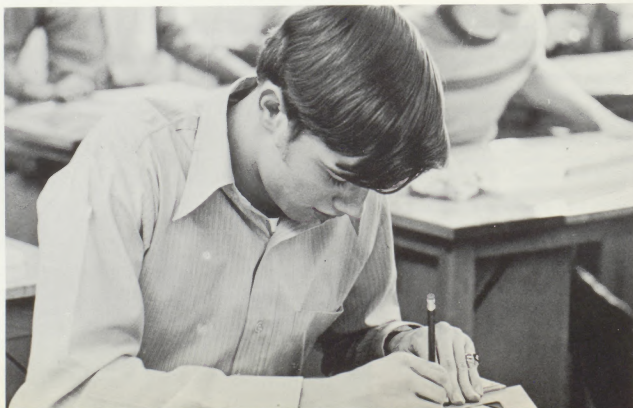

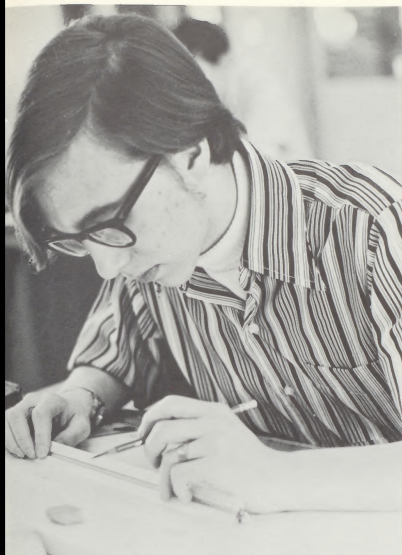

## Drafting projects develop mechanics

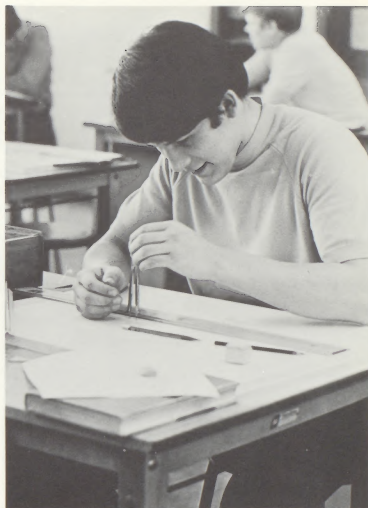

Jim Allen shows Rod Zivanovic the correct procedure of labeling an angle in technical drafting.

Bruce Daell takes his time to do his mechanical drawing project.

Measuring a line in technical drafting in Butch Kasper.

Risel Maldonado uses a dividers while constructing a development of a pipe in technical drafting.

Bill Canner uses a circle template on his drafting project.

As many students complete a semester of mechanical drawing, they then proceed in to drafting. Drafting is a four to six semester course with two credits per semester. The boys taking this course develop their skills in the manipulation of drafting equipment which will enable them to obtain, retain, and advance as a draftsman.

In the first two semesters of drafting the student learns the basic core of the subject. They learn the basic techniques, shape, and size description and other fundamentals. The second year goes into the specialization of drafting.

Ozolid prints of student tracings are evaluated regularly to determine the progress of each student. Basic tests are also regularly given.

Students completing the requirements of this course have ample opportunity to begin their careers by being placed in the cooperative work program during their senior year.

# Home appliance, electric build skills

Boys interested in home appliance repair are required to take four to six semesters of vocational home appliance shop. The main objective of the course is to give the student the opportunity to become familiar with the operation, maintenance and repair of appliances.

Students in the first semester learn shop safety, basic electricity, general shop series, use of test equipment, and small appliance repair. Advancement to the second semester involves learning how to repair wringer type and automatic washers, automatic dryers, dishwashers, and stoves and ranges among other appliances.

Many boys at Tech became interested in various phases of electricity. In such cases, these interested students enroll in industrial electricity. This particular course tries to develop in each student a certain degree of skill in the use of electrical tools and instruments. They learn principles and become familiar with materials and circuits in industry.

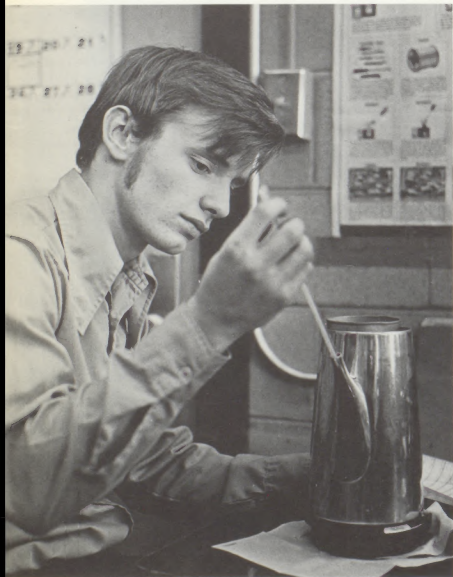

The boys learn basic electricity. A boy who has completed two years of industrial electricity should be able to enter any industry in the area, especially the steel mills at the helper level or higher, rather than at the labor level.

Technical electronics prepares boys

who plan to branch out as future electricians. Each student can prepare himself with the necessary knowledge and working skills that are necessary in the field of electricity. This three to five semester course teaches basic electronics along with radio and communication problems.

Vocational electronics is tied in quite closely with technical electronics. It does, however, enable boys to prepare themselves in the engineering fields at the technical level or at the university level.

The electronic industry is continually expanding, creating many job opportunities for students with electronic knowledge.

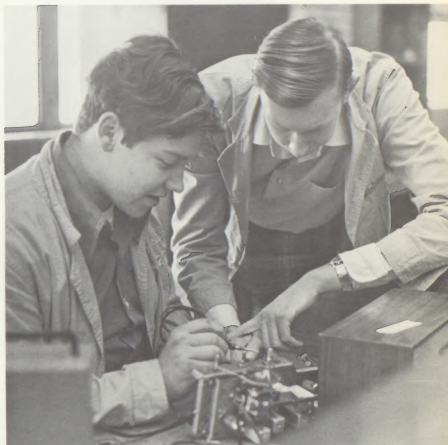

Checking the temperature of an electric coffee pot in home appliance is Richard Bicknell.

John Skript and Mike Ancis troubleshoot a circuit in Mr. Krull's industrial electric shop.

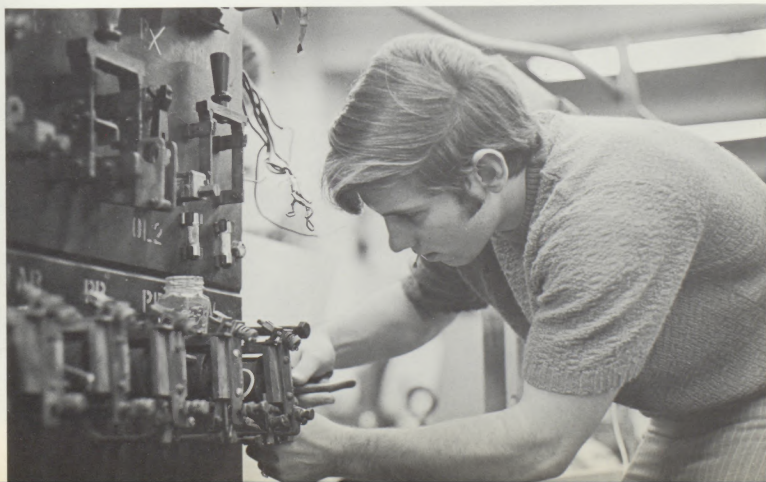

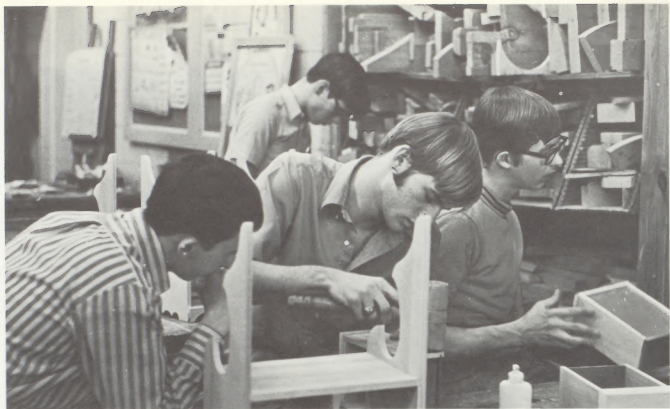

Soldering wire to complete a switchboard circuit is technical electric student Robert Miller.

Checking the motor connections to a panel are Jeff Trinkle and Bill Huspec.

Tim Ledbetter is repairing a relay on the steel mill type motor control panel.

George Strickland looks on as Mark Abell assembles drawers for his spice rack project in pattern shop.

## Woodworking interests satisfied by option

After making an error, Frank Stefanski is forced to extract a nail from a part of his project.

In carpentry, Joe Flores measures the length of a piece of wood for his model house.

Mr. Jaris shows the use of surveying equipment to his carpentry students.

Patternmaking is taken with the purpose in mind of providing a knowledge of the important features and details that are involved in laying out patterns. Also stressed in the molding and making of these patterns.

Mechanical drawing should precede this subject because drawing is usually the only source of information the patternmaker has. Many times it is quite helpful to have some knowledge of machine shop practice.

This course varies from four to six semesters. The knowledge of patternmaking is essential to many of the works of the metal working trades and industries. It is especially desirable that a pattern maker knows all the fundamentals of patternmaking. Students enjoy working and planning their own patterns.

The carpentry trade is a well-paid field which interest many boys. The carpentry course offered at Tech prepares many graduates of this program to enter the carpentry trade as an apprentice or other worker upon the completion of this program.

Carpentry is a course that requires work with many hand tools and text books. It is usually taken for four or six semesters. Carpentry becomes more advanced in the techniques used as the students further themselves into the semester. Other areas that are stressed are reading prints, estimating, and the planning of many projects.

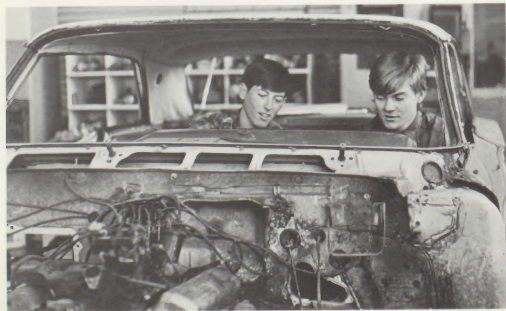

Rad Daumer uses a try-square to check the squareness of a portion of his grandfather clock, while Mr. Schow looks on.

Auto shop students perform a minor adjustment on an engine.

## Auto trains for expanding field

Larry Ryan and Charles Fogarty inspect a dashboard instrument in auto shop.

Many boys came to Tech with the desire to expand their knowledge about automobiles. Tech offers an excellent course in this area. Auto I Shop mainly provides each student enrolled the opportunity to prepare himself with the necessary skills that will give him a good chance at jobs dealing with small engines or service station repair. The length of the course is two semesters. The content of the course varies, depending on the semester. In the first semester engine theory two and four are stressed. In the second semester auto engine service is introduced. Instruction in this shop is done individually or on a group method. Evaluation is a very regular part of this course. The testing is done primarily for motivation purposes.

Auto II Shop may be taken if a boy has had two semesters of Auto I Shop. The course length is four semesters. In the first year of this shop, things such as engine repair, differential repair, and general automotive tune-ups are taught. The second year furthers everything the student has learned. Advanced training is taught at this time. The automotive repair training in this course can be the basis for a future job as an automobile mechanic, machine shop mechanic and many other worthwhile and interesting jobs.

# Offset printing a basic shop skill

Mr. Delaney inspects a project of Wally Pearson's for errors.

Applying a plate to the plate cylinder of the offset press is Gus Mellodo.

The printing department offers a program designed to give the students an insight into the field of printing, and to help them gain experience in some of the fundamental processes. The program also provides for basic training and instruction in typography, letterpress, offset press, and lithography.

Some of the training units developed are straight composition and job composition. Students receive training of the platen press lock-up and quantity paper cutter. Another basic area of printing is layout and design.

After taking at least three semesters of printing, some of the students are able to secure a good position in the printing field without any further training. Some students take an on-the-job training course.

Print shop is also an aid to the school; it prints the Tech Times, sports programs, tickets, posters, and other needed literature.

Dove Rongel sets type for his printing project.

Javier Hernandez employs the use of a torch on a thick piece of band metal.

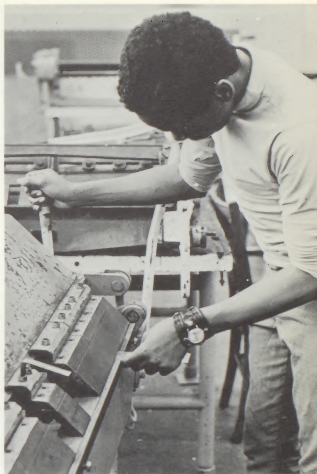

Sparks fly as Ben Jones grinds away at his project.

Laying out a project on a piece of sheet metal is Richard Powers.

Using aviation snips to trim excess metal from his project is Lorry Clemons.

Walter Jones farms a handle for his sheet metal project.

## Industry demands sheet metal, welding

Frank Flit, foreman of his welding shop, uses the migon portable docks.

Vocational sheet metal shop is offered to any 10th, 11th, or 12th grade boy.

The basic fundamentals such as measurement, geometric construction, and bench work are taught during the first semester of the junior year. Parallel line, radial line, and triangulation development are also taught during the first semester. The second semester of the junior year is devoted to the advancement of fundamentals learned in the previous semesters. The two semesters of the senior year deal with more complex assignments.

Students are taught on an individual as well as group basis. They are aided by audio-visuals, lectures, and demonstrations.

After graduation, students who have studied sheet metal work have developed skills and knowledge that will help them when they make application for employment as an apprentice.

Vocational welding shop is open to sophomore and junior boys. The skills developed in this shop gives students a good chance at success in the field of welding.

During their junior year, students learn the fundamental operations in welding, such as basic and arc welding, and how to make fillet welds and butt welds. During the senior year, students advance to the specific operations in welding such as horizontal welding, vertical welding, and overhead welding.

Students are instructed individually and on a group basis. Regular evaluation of their work is an important part of the course.

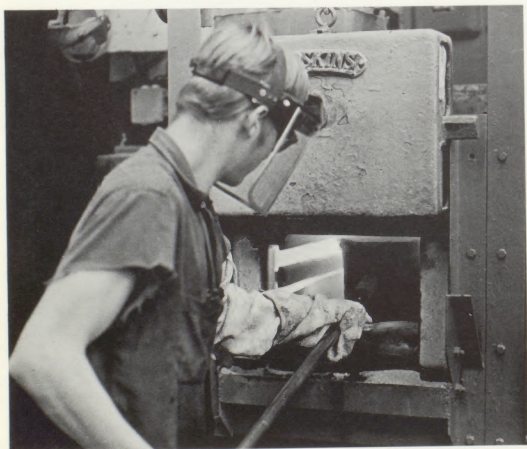

Upon graduation, students who have completed welding shop will have the necessary training as a basis for a welding apprenticeship, and a beginning as a Certified Welder.

Terry Steagall uses a micrometer to measure the diameter of a hammerhead.

In pipefitting, Ken Denny cuts a piece of cast iron soil pipe.

Dan Johnson removes melted aluminum from the furnace in foundry and farge.

Here, Dan pours the liquid metal into the sand molds.

# Machine shops stress mechanical tools; foundry, pipefitting aim for trades

During the junior year in vocational machine shop, students learn how to use various mechanical tools such as a lathe, a shaper, a drill press, and a power saw. Seniors use more complicated machinery, such as a milling machine—both vertical and horizontal, grinders—surface and cylindrical, and tool and cutter, and to do shaper and drillpress work.

Students learn on a group and an individual basis. They are evaluated regularly, and tested often, primarily for motivation purposes.

Machine shop training can be used as a basis for a machinist apprenticeship, a machine technician, a mechanical engineer, a tool designer, a jig and fixture mechanic, and many other related occupations.

There are many objectives to be met in foundry and forge. One objective is to in-

form students of the opportunities of employment and advancement in the foundry industry.

The sophomore year is devoted to learning simple molding, brazing, pouring, and shop safety. Simple iron work and drill press operations are also taught during the year. During the junior year, the students are taught advanced molding, core making, and heat treating. A student in his senior year learns ornamental iron work quality controlmetal, advanced casting design, and special foundry design.

Besides taking written tests and having demonstrations, on the job procedures are shown. The foundry training can be a start of an apprentice trade. There are also numerous advantages in the steel-making business where this training can

making business where this training can be applied.

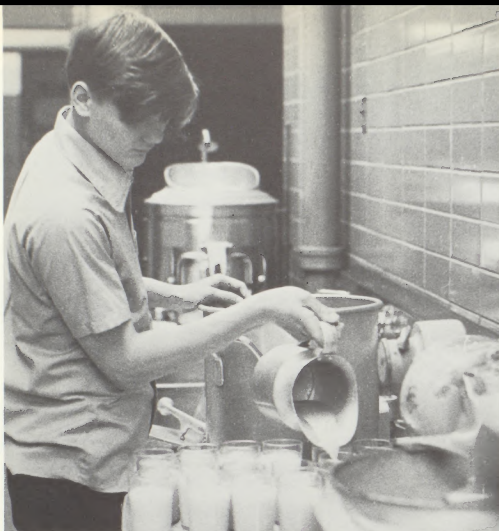

Pipefitting is a 4 to 6 semester course available to any junior and senior boy. The course objective is to teach the student the skill and knowledge to enter one of the pipefitting trades upon graduation.

During a student's junior year he learns the basics of beginning pipe work which include: Use of hand tools, power tools, the different kinds of joints, and measurements. The final year is spent learning hot water circulation, steam and hot water heating, and ventilation.

Upon graduation a student has been trained to go into either pipefitting apprenticeship, plumbing apprenticeship, air-conditioning and heating installation or one of many challenging fields.

Remaining matter is poured into pigs to remelt and use again later.

Keith Pallard pours orange juice into glasses to be served for lunch.

Young men or women at Tech who are interested in the field of food, nutritional value of food, preparation of proper menus, and the cooking and serving of meals, have a chance to further their education in this field by entering foods shop.

Foods students first learn related terms, food evaluation, and the care and use of equipment. They will prepare and cook meals, with all the necessary equipment available for their use. After completing Foods I and II, students still interested may continue to Quantity Baking, or Quantity Cookery, depending on their interests. During their 11th year, students learn basic cooking or baking terms, and during their 12th year advance to training in their specific areas.

Upon completion of quantity cookery training, the student has mastered the basics for positions as first cook and chef, and various management positions on many service levels. Quantity baking training can be the basis for bakers helpers, and cake decorators in local or commercial bakeries.

## Quantity cookery prepares for chefs

Charles Burns arranges and cakes on a tray before taking them to the cafeteria.

In cafeteria service Denise Day arranges milk cartons.

Sanja Martinez helps Debbie Le Duc in perfecting the hem on her project.

Mrs. Mann gives assistance to Linda Francis concerning her garment in Clothing Class.

Nancy Vervic and Denise Brawn in foods class are cooking one of many meals.

Freshman girls are required to take a one-semester course in foods. They are introduced to the basic fundamentals of preparing food and provided with the necessary equipment to prepare and serve meals and desserts. Girls wishing to go on in the area of foods can take Foods 2, which is an advanced cooking class. This class meets for two hours, giving the girls the opportunity to make larger meals and prepare special dishes.

Also required for freshman girls is clothing. In Clothing 1, girls learn to read and layout patterns and to use sewing machines properly. Girls interested in continuing sewing go on to Clothing 2, and advanced clothing. They become familiar with various types of materials, and have a definite number of articles to complete. Students are graded on the quality of the articles they have produced.

Mrs. Higgins gives one of many informative talks in family living.

All freshmen girls are required to take one semester of family living and one semester of homemaking. These classes are to help prepare girls for their future as homemakers. Homemaking is concerned with teaching girls things like house decorating, mixing, and matching colors properly, and arranging room furnishings in a home. In family living, girls discuss themselves and their futures as homemakers. They also discuss the importance of getting along with other people.

Two other classes offered to help girls prepare for their future lives as homemakers are home management and home nursing. Home management familiarizes the students with electrical appliances and other essential equipment used almost every household. Home nursing teaches some necessary facts in medical care such as taking temperatures and pulses, and also deals with child care. These classes will be helpful to any girl who will one day have a home of her own.

In home management, Iola Johnson watches at Katherine Cathran demonstrates procedure for repairing a light bulb.

Jockie Graham checks her homework before class discussion starts in homemaking.

## Insights of family living stressed

Miss Doggett, instructor in home nursing, folds the sheet of a sick bed for an example to Kim Campbell and Aldano Martisaukas.

# Steno, tab labs initiate business-like surroundings

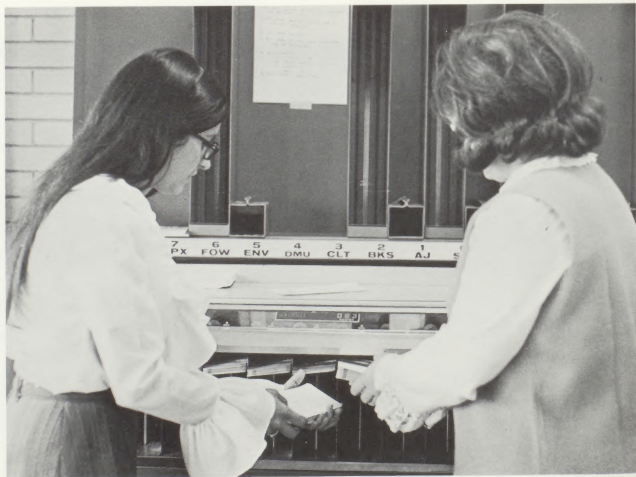

Steno lab meets three hours and is taken by senior girls on the stenographic course. In steno lab girls type, take shorthand, learn to use a dictaphone, and do various jobs similar to those they would do in an office. Through steno lab girls become familiar with situations that they would run into while working on a job. This class provides senior girls with valuable experience which will be helpful in future employment.

Transcription is an advance shorthand class, which is taken after Shorthand 2 is completed. In transcription girls concentrate on increasing their shorthand speed and their accuracy in reading their shorthand. Transcription class prepares girls to advance to secretarial careers by helping them reach the speed which is required

by most offices and industries.

Computer programming is a class concerned with more advanced computers such as the digital computers. Students participating in the class will be prepared to enter the field of computer programming or go on to advanced training in this field. Computer programming is becoming a popular and well-paying position, and it offers a successful career to interest students.

Tab lab is a class mainly concerned with teaching students how to wire boards for computers. They also do various jobs on data processing machines. Tab lab can be taken for one or two hours and proves to be very helpful to students entering the data processing field after graduation.

Liz Moldonado and Carlo Commings make use of the sorter in Computer programming.

Jaon O'Neill takes dictation from Mrs. McQuigg in Steno Lab.

Mr. Kuncel instructs Ruth Mezacopa on the wiring of a "407."

In Transcription, Laura Hernandez types from her shorthand.

Ron Kuzmo types from a document source in Key Punch.

In Business Machines on important part is to learn to proofread for any errors that could prove costly in real work.

Mary Ramirez types out I.B.M. cards.

Business machines is a very helpful class to any business student. Here students learn to use various types of business machines, both manual and electric. Each student has an opportunity to use all the different types of machines. Business machines is taken for one or two hours, depending on the student's schedule.

Introduction to business students learn the basic skills required in some businesses. They learn to weigh articles, use the cash register, fill out receipts and count change. It is a one-hour course that is helpful to any student planning to go into the business world.

A knowledge of bookkeeping is often a necessary skill for many jobs. Students have the opportunity to learn this skill in bookkeeping classes. In the class they learn how to handle the books of a company, post transactions into journals and ledgers, and balance the books of a company.

Students in keypunch learn how to operate the keypunch machine, which is the basic machine used in computer programming.

## Business operation mechanics learned

Students find that in bookkeeping a lot of calculating and written material is required.

In typing class girls take timings to increase their speed.

Girls hoping to become successful secretaries have an opportunity to acquire the basic secretarial skills of typing, filing, and shorthand.

Typing 1 through 4 is offered at Tech. In Typing 1 students become familiar with the typewriter and the basic typewriting skills. In Typing 2, students go into more detailed procedures such as margin settings, tabs, and several different forms for typing letters. Students going into advanced typing classes concentrate on increasing their speed and accuracy while they work on more difficult projects.

Filing provides students with a basic knowledge of alphabetizing and filing cards. They work at their own speed. Students become familiar with different types of filing systems. The last few months are spent on business law. Here they learn about court and law procedures.

Girls in Shorthand 1 spend their time in a two-hour class becoming familiar with the shorthand forms and the basic techniques in writing shorthand. Girls in Shorthand 2 concentrate on increasing their speed. Students completing Shorthand 1 and 2 can go on to Transcription and Steno Lab.

Keeping your eyes on the copy is one rule girls must master to be good typists.

## Office jobs demand shorthand, typing

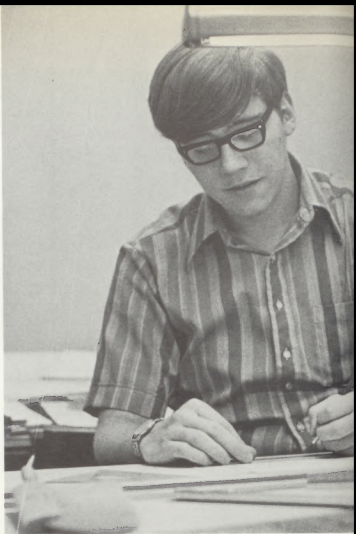

Eva Mosely and Sheila Cothran arrange cards in proper order in filing class.

Joyce Kilgore prepares to do some class work in shorthand.

Sophomore Don Hall, in the work-study program, works part time at St. Ann's Home and also attends school.

Rick Ballard is an apprentice draftsman at the Champion Corporation through the Industrial Cooperative Training program.

Columet National Bank employs Linda Nicpon as a cooperative office education student.

The Distributive Education course placed Janice Smith at Montgomery Ward's as a cashier.

## Work programs employ students

Junior or senior students are given the opportunity to receive supervised on-the-job training and general and specified job-related training through the Industrial Cooperative Training program.

Students work half days at training stations and receive related classroom instruction and required general education courses. Students are instructed individually and on a group basis in related classroom instruction; each student is also instructed individually while undergoing on-the-job training. Both the employer and the school evaluate each student.

Students receive two credits for the ICT program as well as earning money. But more important, students have the opportunity to enter the world of work and become responsible citizens through cooperative education.

One of Tech's programs that enables students to gain worthwhile experience in a distributive occupation while earning

money in high school is Distributive Cooperative Education. This two-year program begins with Retailing and Salesmanship in the junior year as a prerequisite. Students selected by the coordinator on the basis of want, need, and interest, participate in the program.

The course is open to both boys and girls. Various types of stores such as discount, department, and specialty stores, along with supermarkets, are available as training stations. The students acquire experience in selling, customer services, receiving, and marketing. Through the use of this training plan, students are taught according to their specific areas of work. The supervisor and the coordinator have periodic conferences concerning the student's progress, which is graded by both the supervisor and the coordinator. The program serves as a cohesive device between the job and the school.

Senior business students who have satisfactorily completed the necessary course

work and have an interest and desire for office work are given the opportunity to gain valuable experience in the business world through the Cooperative Office Education program.

Qualified senior boys and girls are placed in a training station within the Hammond community. There, students will work with the regular employees, gaining experience in the business world. Student-learners are evaluated every six weeks by their job supervisors; the coordinator and supervisor have periodic conferences to discuss each student's progress.

COE students take a related class which familiarizes each student with equipment similar to what he will use on the job.

Young men and women in this training program will get a headstart in office experience, establish a good reference for future employment, and acquire a good background training in modern business needs and problems.

## Youth and adults

Where do I go, How do I get there?  
A cry of a beginner, yes, a freshman.  
Thoughts ran through each mind. Will  
I ever make it and if I do how will I  
feel as a senior?

Then we were sophomores.

No longer wandering aimlessly.

We now began to make a place for  
ourselves.

One step higher we went.

Juniors we became, upper-classmen.

Individuals of position and experience.

Along this climb faces were noticed  
other than just students.

The faces of wisdom, people trying to  
share knowledge with us—teachers.

They tried to cross the barriers we  
placed before them.

Funny how in spite of everything they  
taught, they listened, and we learned.  
We found ourselves surprisingly seniors.  
Yes, we finally made it.

We were ready to face the world with  
all the knowledge we acquired in  
four short years.

Yes, we made it through being freshmen  
so mixed up and afraid.

We grew up a little as sophomores  
and combated the problems of juniors.

And now as if a miracle we are seniors.

We were followers of others before us;  
Now we are leaders for those behind us.

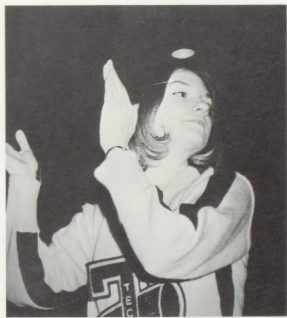

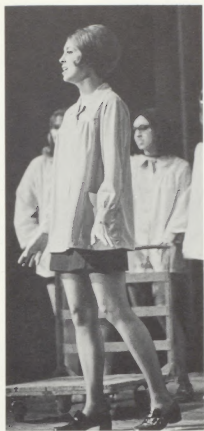

Laura Zarowny—Valedictorian

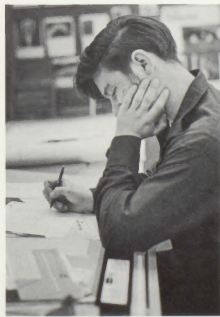

Linda Nicpan—Salutatorian

Events of their senior year will always be

fondly remembered by the class of '71

Tom Chocholek, President

Lindsey Smith, Vice-President

Solly Novarra, Treasurer

## Seniors find last year memorable and enjoyable

The Senior Class of 1971 ended their four years in high school June 10. During their senior year, they put to use their class motto, "We better the present to better the future," as they became responsible young adults entering the world of business or going on to college to further their education.

The class colors of the seniors were Navy and Gold, and the carnation was their class flower. "We're the best under the sun—We're the class of '71," was the class yell.

first historical sights to be visited  
on the New York-Washington  
tour.

JUNIOR CLASS OFFICERS Front row: Betty Bucek, Vice-President; Kathy Martin, Treasurer; Margaret Grubich, Secretary; Ran Kazlawski, President; Lais Edwards, Social Chairman.

## Juniors face responsibility with pride

### IN MEMORIAM

Michael Huspek, age 16 years, died accidentally February 14, 1971.

The Junior Class of 1970-71, felt the motto "To better ourselves for tomorrow, we must better ourselves today," represented their feelings of the near future. They selected the carnation as their class flower, and red and blue become their chosen junior colors. This year, the junior class also had a mascot, Mickey Mause.

## School city faces huge deficit ahead

Board of Education Members: Front row left to right: Mr. Alfred J. Kuhn, President; Dr. Henry W. Eggers, Vice-President; Dr. Albert L. Kaye, Secretary, Back row: Mr. Max H. Mason, Member; Mr. Ralph Potesto, Member.

Miss Mildred Peehl

## IN MEMORIAM

In memoriam of Miss Mildred Peehl, the students would like to make this tribute to her for her services these past years as a Tech teacher.

Miss Peehl, born in Chicago City, Minnesota, September, 1909, began her teaching career very early. She taught in Davenport, Iowa for several years before she came to Tech.

A member of Delta Kappa Gamma and Pi Lambda Theta, Miss Peehl's outstanding love for teaching can best be said in her own words written shortly before her death:

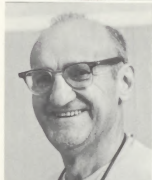

"I have spent 25 years with wonderful people. I have always felt that the Tech people were the finest I've ever known, and the Tech students were cooperative, proud of their school and grateful for their opportunities. It has been a joy to meet Tech graduates years after they have left us, and listen to their admiration for their school. I simply cannot express how grateful I am to all of you, for your many kindnesses to me. In so many ways you smoothed the road for me."

Miss Peehl taught economics, government, and various phases of history.

# Faculty number grows to 111 on staff

Andrew Adaska, Vocational Coordinator, M.S., Purdue; Loretta Argerus, English, Student Guides, B.A., Purdue; Margaret Arndt, Counselor, M.A., DePaul; Elizabeth Benson, English, Debate, B.A., Ribon College.

## Ads and patrons

We constantly hear the cry  
"Help your community."

In our school years we have done this.  
But before you is a product made  
possible by this community.

Each year students approach businesses.  
Not for themselves,  
but for a school yearbook.  
From the ads purchased by business  
a yearbook is produced.

Yes, the community played a part;  
The community helped us.  
Unforgotten is the ad.

A business is represented in a book  
which represents a school.

Together we represent the community.  
We've seen business prosper and grow,  
apparent often by the ad purchased.  
Faithful businesses  
are yearly and welcomed.  
Ads portray a picture of our city.

Our people,  
our tastes,  
our recreations,  
creep out of the pages.  
Business is  
a struggle toward growth  
and prosperity.  
But a constant beginning—  
an assistant to a school yearbook.

## High School is a waste of time . . .

. . . unless you find a job that turns you on and makes good use of your education. Inland Steel wants only people who want to use everything they've learned in high school--and strongly desire to grow personally and in their chosen field.

Inland's future growth depends on the creativity and productivity of its people. If you want a really challenging opportunity to contribute--with the rewards and responsibilities that go with it--Inland wants to talk to you.

We need action-seeking graduates for opportunities in clerical . . . production . . . technical . . . and craft apprenticeship areas.

Think it over. If you have high aspirations and a good high school record, take time to find out about a career with us.

#### AN OPPORTUNITY TO SERVE

An opportunity to serve awaits industrious young men and women at Northern Indiana Public Service Company. As one of the top gas and electric distribution utilities in the United States, NIPSCO is constantly looking for new processes and methods of efficient operation. These include atomic power generation, extra high voltage transmission, underground electric distribution, computerized system planning, underground storage of natural gas, community analyses and electronic data processing.

***Ready to grow with  
a growing company?***

#### IN AN ATMOSPHERE OF GROWTH

NIPSCO is one of the highest-paying utilities in the State of Indiana. Its attractive employee benefit package—tuition refund plan, vacations, holidays, life insurance, comprehensive medical insurance, pensions, etc.—provides an atmosphere for individual growth. Fifteen leading colleges and universities are strategically located throughout its service area with others available in the greater Chicago area. Drop in. We'll be glad to talk jobs with you.

Mrs. Myers takes a break during work on the final deadline.

## Staffers work into summer to finish book

After school was out, Marty, Don and Richard work on the index at a staff member's house.

## ACKNOWLEDGEMENT

This year the "Chart" staff made several changes in the yearbook. We tried to give you, people of Tech, the kind of book you wanted. We added another 16 pages to make a total of 240. We planned a more-detailed sports section. We covered more activities, traditional and club-sponsored. Each two division pages is a story in itself with the meaningful copy and the pictures encompassing the entire school year. Lastly, we planned a new kind of cover designed especially for, of, and by the people of Tech. We even changed the book to a fall delivery. Many of you didn't take to that so well, but if we didn't, none of the preceeding changes would have been possible. We hope we have succeeded in giving you the kind of

book you want, because if we haven't, chances are that we couldn't.

There are several students I would like to thank for their contributions and hard work: Sharon, for her unique copy on the division pages; Richard, for the few last rush photos, including the "money-filled" one; Marty, for helping on the sports, typing, and even the index; and Dan, faithful "Chart" member for working everyday (almost) and doing everything from writing copy to typing to indexing without (much) complaint.

I would also like to thank George Kingsley of Paragon Press for helping us with a few minor (?) upsets.

Double thanks go out to Harry of Bodie's for getting almost all the pictures

we kept bugging him for. And, for doing a real good job for us this year.

To all the teachers who "cooperated" with us, I say thank-you; to the others, I say please try and be a little more understanding with the "Chart" staff next year.

Lastly, I'll never be able to express in words how thankful I am to Mrs. Myers for especially keeping her "patience" with me throughout the year and the few last weeks.

This has been one heck of a year; but once again, when the book comes out, it WILL be worth all the pain and trouble AND time that was put into it.

Connie L. Basham  
Editor in Chief
